This page is for displaying the resources of a particular module (derived from the module folio), filtering it and organizing it based on user role and entitlement. This is an all-purpose page in that it works across all roles and entitlement levels.

Module Summary – Mixtures and Solutions - FOSS

The Mixtures and Solutions Module has five investigations that engage students with the phenomena of matter and its interactions in our everyday life—mixtures, solutions, solubility, concentration, and chemical reactions. The driving question is what is matter and what happens when samples of matter interact?

FOSS Mixtures and Solutions Investigations 1-4 Big Idea: EALR 4 Matter: Properties and Change A single kind of matter can exist as a solid, liquid, or gas. Matter is not lost during

changes of state. properties such as Success Criteria: I can... explain the difference between a mixture and solution.

Formative Assessment:

Mrs. Molishus / Mixtures and Solutions

simple mixtures, suspensions, and solutions. Students make mixtures of water and solid materials and separate the mixtures with screens and filters. They find that water and salt make a particular kind of mixture, a solution, which cannot be separated with a filter but only through evaporation. They begin to develop a model of dissolving.

Resources By Investigation - FOSS

Students make mixtures of water and solid materials and separate the mixtures with screens and filters. They find that water and salt make a special kind of mixture, a solution, which cannot be separated with a filter but only through evaporation. Students are challenged with a problem: how to separate a mixture of three dry solid materials.
