simple mixtures, suspensions, and solutions. Students make mixtures of water and solid materials and separate the mixtures with screens and filters. They find that water and salt make a particular kind of mixture, a solution, which cannot be separated with a filter but only through evaporation. They begin to develop a model of dissolving.

### MIXTURES AND SOLUTIONS Overview - FOSS

Just remember, a mixture is any combination of two or more substances that don't chemically combine and a solution is a homogeneous mixture, meaning the ratio of substances is uniform throughout ...

Module Matrix Mixtures and Solutions Module 3 Content Reading Assessment

- A mixture is two or more materials intermingled.
- An aqueous solution is a mixture in which a substance disappears (dissolves) in water to make a clear liquid.
- Mixtures can be separated into their constituents by using screen, filters, and evaporation.

### M.I.X. Mixtures & Solutions Rap

The Mixtures and Solutions Module has five investigations that engage students with the phenomena of matter and its interactions in our everyday life—mixtures, solutions, solubility, concentration, and chemical reactions. The driving question is what is matter and what happens when samples of matter interact?

### FOSSweb.com

Students make mixtures of water and solid materials and separate the mixtures with screens and filters. They find that water and salt make a special kind of mixture, a solution, which cannot be separated with a filter but only through evaporation. Students are challenged with a problem: how to separate a mixture of three dry solid materials.
