Resources By Investigation - FOSS

The Mixtures and Solutions Module has five investigations that engage students with the phenomena of matter and its interactions in our everyday life—mixtures, solutions, solubility, concentration, and chemical reactions. The driving question is what is matter and what happens when samples of matter interact?

We then charted any mixtures that they may know: chocolate milk, fruit salad, clothes in the dryer, coffee and creamer, stew, Skittles, etc. I did not differentiate between mixtures and solutions.

Students also had the opportunity to sort out pictures into either a mixture or a solution.

They're actually a few different things combined to make a new thing. In this episode of Crash Course Kids, Sabrina talks about all the different mixtures, solutions, and ants that can be at a picnic.

[Module Summary – Mixtures and Solutions - FOSS](#)

Students make mixtures of water and solid materials and separate the mixtures with screens and filters. They find that water and salt make a special kind of mixture, a solution, which cannot be separated with a filter but only through evaporation. Students are challenged with a problem: how to separate a mixture of three dry solid materials.

[Mixtures vs Solutions | Know the Difference](#)

simple mixtures, suspensions, and solutions. Students make mixtures of water and solid materials and separate the mixtures with screens and filters. They find that water and salt make a particular kind of mixture, a solution, which cannot be separated with a filter but only through evaporation. They begin to develop a model of dissolving.

This page is for displaying the resources of a particular module (derived from the module folio), filtering it and organizing it based on user role and entitlement. This is an all-purpose page in that it works across all roles and entitlement levels.
