According to Foucauldian discourse analysis, truth is a discursive construction and different knowledge regimes state what is true or false and the aim is to clarify different knowledge regimes ...

The Field of Foucaultian Discourse Analysis: Structures ...

discourse analysis not only captures something important about the social world, but also plays a key ethical and political role in showing how social phenomena are discursively constituted: it demonstrates how things come to be as they are, that they could be different, and thereby

that they can be changed (Hammersley, 2003, p. 758).

What has become known as 'discourse analysis' reflects a distinct interest in the social, political and psychological characteristics of language use. Given the variety of approaches that now exist, discourse analysis means different things to different tribes within the social sciences.

a Foucauldian approach to discourse analysis. A Foucauldian notion of discourse (1) holds that: discourse is a culturally constructed representation of reality, not an exact copy discourse constructs knowledge and thus governs, through the production of categories of knowledge and assemblages of texts, what it is possible to talk about...

Discourse analysis and use of Foucault

Finally, Foucault sees the work of discourse analysis and interpretation as an 'incomplete saturation' and 'increasing polymorphism', which could be easily understood as the need to connect empirical observations with further social phenomena: "One has to proceed by progressive, necessarily incomplete saturation.

Foucauldian discourse analysis - Wikipedia

Discourse analysis. The objects of discourse analysis (discourse, writing, conversation, communicative event) are variously defined in terms of coherent sequences of sentences, propositions, speech, or turns-at-talk. Contrary to much of traditional linguistics, discourse analysts not only study language use 'beyond the sentence boundary'...
