Casebook McGraw-Hill/Irwin
The new edition of Essentials of Business Statistics delivers clear and understandable

explanations of core business statistics concepts, making it ideal for a one-term course in business statistics. Containing continuing case studies that emphasize the theme of business improvement, the text offers real applications of statistics that are relevant to today's business students. The authors motivate students by showing persuasively how the use of statistical techniques in support of business decision-making helps to improve business processes. A variety of examples and exercises, and a robust, technology-based ancillary package are designed

to help students master this subject. In addition, the authors have rewritten many of the discussions in this edition and have explained concepts more simply from first principles. The only prerequisite for this text is high school algebra.

About 20 cases, writing by the authors; provide more in-depth exercises and application opportunities, while keeping consistent with the text. Suggested cases are included at the end of each chapter in the main

text.

Fundamentals of Risk Management Foundations of Financial Management Foundations of Financial Management Fundamentals of Risk Management, now in its fourth edition, is a comprehensive introduction to commercial and business risk for students and a broad range of risk professionals. Providing extensive coverage of the core frameworks of business continuity planning, enterprise risk management and project risk management, this is the definitive guide to dealing with

the different types of risk an organization faces. With relevant international case examples from both the private and public sectors, this revised edition of *Fundamentals of Risk Management* is completely aligned to ISO 31000 and provides a full analysis of changes in contemporary risk areas including supply chain, cyber risk, risk culture and improvements in risk management documentation and statutory risk reporting. This new edition of *Fundamentals of Risk Management* has been fully

updated to reflect the development of risk management standards and practice, in particular business continuity standards, regulatory developments, risks to reputation and the business model, changes in enterprise risk management (ERM), loss control and the value of insurance as a risk management method. Also including a thorough overview of the international risk management standards and frameworks, strategy and policy, this book is the definitive professional text for risk managers.

*Foundations of Financial
Management Casebook*
?????????????

Finance is the study of how
individuals, institutions,

governments, and businesses
acquire, spend, and manage
their money and other
financial assets to maximize
their value or wealth.

Fundamentals of Finance
introduces the nuances of
finance in a comprehensive
yet concise manner and is
essential reading for
professionals building a
career in finance or for
students taking a course in
finance. The book consists of
four parts: Part I:
"Introduction to Finance,
Money and Interest Rates,
and Time Value of Money"

focuses on the role financial markets play in the financial system and financial basics that underlie how markets operate. Part II: "Investments and Portfolio Management" discusses the characteristics of stocks and bonds, how securities are valued, the operations of securities markets, formation of optimal portfolios, and derivatives. Part III: "Financial Management/Corporate Finance" explores financial planning, asset management, and fund-raising activities

that will enhance a firm's value. Part IV: "Management of Financial Institutions" focuses on management of financial institutions in general, and risk management in financial institutions in particular. The book's many examples, appendices, graphs and tables provide valuable know-how to a wide audience, making it an excellent resource for professionals as well as students who wish to attain a broad understanding of finance. Please contact Stefan .Giesen@degruyter.com to

request additional instructional material.
