A steadfast faith is built on the firm foundation of God's Word. For decades, this pattern of teaching has helped men and women around the world gain a clear understanding of God, man's relationship with Him, and the grace He has made freely

available through the death of His Son. Many teachers have successfully used these lessons from the previous version in churches, classroom and small groups. Firm Foundations: Creation to Christ presents in order key teachings about: God's nature and character; Man's sinful state and separation from God; God's grace, presence and activity through history; Christ as the promised Redeemer. Moving from Genesis through the life of Christ, your students will see God's plan of redemption unfold. They'll follow God's pattern of progressively revealing His character. In her latest edition of *Reciprocal Teaching at Work*, she demonstrates how to scaffold instruction so that all K – 12 students can benefit from reciprocal teaching techniques, what she calls the "Fab Four"—predicting, questioning, clarifying, and summarizing—in whole-group, guided reading, and book club settings, for both fiction and informational texts. In clearly delineated lessons and minilessons, Lori deftly shares how to support students' learning, including

English language learners and students who struggle, so they can successfully apply and monitor those four discussion strategies—as well as troubleshoot problems—to yield significant progress in their reading comprehension. Filled with great practical ideas, this gem of a book is a must-have for all literacy educators!" —Regie Routman, author of *Read, Write, Lead*; *Literacy Essentials*, and *Reading Essentials* "Reciprocal teaching works to push students into deeper learning. equity of educational processes and outcomes. With the recent increased focus on culture and equity within the educational research community, this volume presents a comprehensive, innovative treatment of what has become one of the field's most timely and relevant topics.
