Does Buddhism require faith? Can an atheist or agnostic follow the Buddha's teachings without believing in reincarnation or organized religion? This is one man's confession. In his classic *Buddhism Without Beliefs*, Stephen Batchelor offered a profound, secular approach to the teachings of the Buddha that struck an emotional chord with Western readers. Now, with the same brilliance and boldness of thought, he paints a groundbreaking portrait of the historical Buddha—told from the author's unique perspective as a former Buddhist monk and modern seeker. Drawing from the original Pali Canon, the seminal collection of Buddhist discourses compiled after the Buddha's death by his followers, Batchelor shows us the Buddha as a flesh-and-blood man who looked at life in a radically new way. Batchelor also reveals the everyday challenges and doubts of his own devotional journey—from meeting the Dalai Lama in India, to training as a Zen monk in Korea, to finding his path as a lay teacher of Buddhism living in France. Both controversial and deeply personal, Stephen Batchelor's refreshingly doctrine-free, life-informed account is essential reading for anyone interested in Buddhism.

A devoted Buddhist and a spokesman for Tibetan culture, Lama Anagarika Govinda was one of the last foreigners to journey through Tibet before the Chinese invasion of 1950. Govinda's luminous and candid account is a spectacular and gloriously poetic story of exploration and discovery, and a sensitive and lucid interpretation of Tibetan traditions. Comprised of elements from several genres—spiritual journals, adventure narratives, anthropological field reports, and philosophical commentaries, *The Way of the White Clouds* is one of the twentieth century's classic spiritual autobiographies and an invaluable document about a place and a way of thinking that are virtually defined by their mysteries. Robert Thurman's perceptive new introduction to the volume places Govinda's writings in historical context and expands understanding of Tibet, Buddhism, and the life of a remarkable man who, as Thurman remarks, is "undoubtedly one of the West's greatest minds of
