"Trapped for decades, a powerful god seeks freedom . . . and revenge. But the only thing that can save him is the passion of a woman's touch . . . " Emma Keane is your average city girl trying to get a date. There's just one thing holding her back: the disembodied male voice speaking to her through her mind. Sound kind of crazy? Maybe. But crazy turns downright deadly when the voice persuades her to travel to the wilds of the Mayan jungle. There she will free his body-his incredibly hot, muscled, "naked" body. Humans are so frail, so undisciplined, so susceptible to love. And when this ancient being connects with Emma, the feelings she sparks drive him utterly mad. Protective, keep-her-close, never-

let-her-go kind of mad. Which might not be such a bad thing because from the moment the beautiful, passionate Emma unshackles his body, they are hunted at every turn. Now he'll have to do everything in his power to keep her safe. But will it be enough? The Accidentally Yours Series BOOK 1: Accidentally in Love with...a God? An amazing, often overlooked story of the man who brought Yoga and Tibetan culture to America. Theos Bernard's colorful, enigmatic, and sometimes contradictory life captures an intersection of East and West that changed our world. After years of forcibly stopping foreigners at the borders, the leaders of Tibet opened the doors to their kingdom in 1937 for Theos Bernard. He was the third American to set foot in Tibet and the first American ever initiated into Tantric practices by the highest lama in Tibet. When Bernard left that sacred land, he was sent home with fifty mule loads of

priceless, essential Buddhist scriptures from government and monastery vaults. Bernard brought these writings to America, where he achieved celebrity as a spiritual master. Appearing four times on the cover of the largest-circulation magazine of the day, befriending some of the most famous figures of his era, including Charles Lindbergh, Lowell Thomas, Ganna Walska, and W. Y. Evans-Wentz, and working with legendary editor Maxwell Perkins, the charismatic and controversial "White Lama" introduced a new vision of life and spiritual path to American culture before mysteriously disappearing in the Himalayas in 1947. Biography, travel and adventure, a history of Tibet's opening to the West, and the story of Buddhism and Yoga's arrival in America, *White Lama: The Life of Tantric Yogi Theos Bernard, Tibet's Lost Emissary to the West* is

the first work to tell his groundbreaking story in full and is a narrative that thrills from beginning to end. Includes 15 photographs shot in Tibet in 1937 by Theos Bernard, part of a collection that has been described as the best photographic record of Tibet in existence.

Just before Buddha died somebody asked him: When a buddha dies where does he go? Does he survive or simply disappear into nothingness? This is not a new question, it is one of the oldest, many times repeated and asked. Buddha is reported to have said: Just like a white cloud disappearing.... This very morning there were white clouds in the sky. Now they are there no more. Where have they gone? From where do they come? How do they

evolve, and how do they dissolve again? A white cloud is a mystery, the coming, the going, the very being of it. That's the first reason why I call my way The Way of the White Clouds.

One of the most common issues clients face is lack of energy, vitality or prana and this book presents a simple yet revolutionary breathing approach to restore balance. Grounded in the yogic teachings, this text introduces the Buteyko breathing method as a more contemporary way of understanding the original intention of pranayama. Through extensive research, Robin Rothenberg establishes that as with Dr. Buteyko's breath retraining technique, the ancient yogis prescribed breathing less not more. Vedic science and physiology are broken down and explained in accessible ways. The book presents a new understanding and application of breathing to address a wide range of ailments, including COPD,

asthma, hay-fever, autoimmune disorders, anxiety, sleep apnoea and neurological conditions.

Does Buddhism require faith? Can an atheist or agnostic follow the Buddha's teachings without believing in reincarnation or

organized religion? This is one man's confession. In his classic *Buddhism Without Beliefs*, Stephen Batchelor offered a profound, secular approach to the teachings of the Buddha that struck an emotional chord with Western readers. Now, with the same brilliance and boldness of thought, he paints a groundbreaking portrait of the historical Buddha—told from the author's unique perspective as a former Buddhist monk and modern seeker. Drawing from the original Pali Canon, the seminal collection of Buddhist discourses compiled after the Buddha's death by his followers, Batchelor shows us the Buddha as a flesh-and-blood man who looked at life in a radically new way. Batchelor also reveals the

everyday challenges and doubts of his own devotional journey—from meeting the Dalai Lama in India, to training as a Zen monk in Korea, to finding his path as a lay teacher of Buddhism living in France. Both controversial and deeply personal, Stephen Batchelor's refreshingly doctrine-free, life-informed account is essential reading for anyone interested in Buddhism.

The Lost Teachings of Lama Govinda offers a precious glimpse into the consciousness of an extraordinary scholar and mystic, shedding new light on Govinda's legendary role as both a pioneer and a prophet. Born in Germany, Lama Govinda was one of the first Westerners to introduce Tibetan Buddhism as an initiate in the tradition. His famed works, The Way of the White Clouds and Foundations of Tibetan Buddhism, live on as some of the best in the field. In this collection of essays and dialogues, Govinda delivers insights that are both timely and

timeless. Ranging in issues and themes, including transpersonal psychology, drugs and meditation, Christianity, Theravada and Zen Buddhism, and the I Ching, editor Richard Power brings together Lama Govinda's rarest material—some never before published, some long out of circulation.

Westerners wanting to know about tantra—particularly the Buddhist tantra of Tibet—often find only speculation and fancy. Tibet has been shrouded in mystery, and "tantra" has been called upon to name every kind of

esoteric fantasy. In *The Dawn of Tantra* the reader meets a Tibetan meditation master and a Western scholar, each of whose grasp of Buddhist tantra is real and unquestionable. This collaboration is both true to the intent of the ancient Tibetan teachings and relevant to contemporary Western life.

Presents a translation and commentary to the oldest known extant Taoist text, *Inward Training (Nei-yeh)*, which is

composed of short poetic verses devoted to the practice of breath meditation and its resultant insights about human nature and the cosmos. Roth argues that Inward Training is the basis of early Taoism, and suggests that there may be more continuity between early philosophical Taoism and later Taoist religion than scholars have thought.

Lama Govinda provides an exciting overview of contemporary Buddhist Philosophy for the modern student. He shares his

insights into Indian and Tibetan Buddhist traditions concerning the nature of reality, the development of consciousness, death and rebirth, faith and tolerance, and the significance of meditative and ritual practices. In depicting the Tantric Buddhist approach that utilizes ancient mantras and mandalas to produce meditative absorption in a unified experience of sound, color and form, Lama Govinda pays homage to a spiritual edifice of great beauty and complexity. Lama Govinda invokes a

multidimensional vision of Buddhist understanding that includes the rational perspectives of modern science and psychology, but goes far beyond them. In building a conceptual bridge between Eastern mysticism and Western philosophy, he discusses the work of Assagioli, Teilhard de Chardin and von Durkheim, among others. There are also chapters of concern to Western society, such as the expansion of consciousness through drugs and the nature of attachment and suffering in love relationships. the material presented here was gathered from lectures and articles written by Lama Govinda shortly before his death in 1985, providing readers a close look at his warmth and lovingness.

For nearly a decade, Matteo Pistono smuggled out of Tibet evidence of atrocities by the Chinese government, showing it to the United States government, human rights organisations, and anyone who would listen. Yet Pistono did not originally intend to

fight for social justice in Tibet - he had gone there as a Buddhist pilgrim. Pistono's quest led him to Tibet and to a meditation master whose spiritual brother is Sogyal Rinpoche, bestselling author of *The Tibetan Book of Living and Dying*. Pistono not only became the master's student but also couriered messages to him in Tibet from the Dalai Lama in India. This began an extraordinary, and ultimately vital, adventure. In the *Shadow of the Buddha* is a book about Tibet through the eyes of a devotee - a stranger

hiding in plain sight. It's about how a culture's rich spiritual past is slipping away against the force of a tyrannical future. It's about how Tibetans live today, and the tenacity of their faith in the future in spite of dire repression and abuse. It's also about Pistono's own journey from being a frustrated political activist to becoming a practicing Buddhist mystic, a man who traveled thousands of miles and risked his own life to pursue freedom and peace.
