Daily Word Ladders Penguin

One of the main concerns for digital photographers today is asset management: how to file, find, protect, and re-use their photos. The best solutions can be found in *The DAM Book*, our bestselling guide to managing digital images efficiently and effectively. Anyone who shoots, scans, or stores digital photographs is practicing digital asset management (DAM), but few people do it in a way that makes sense. In this second edition, photographer Peter Krogh -- the leading expert on DAM -- provides new tools and techniques to help professionals, amateurs, and students: Understand the image file lifecycle: from shooting to editing, output, and permanent storage Learn new ways to use metadata and key words to track photo files Create a digital archive and name files clearly Determine a strategy for backing up and validating image data Learn a catalog workflow strategy, using Adobe Bridge, Camera Raw, Adobe Lightroom, Microsoft Expression Media, and Photoshop CS4 together Migrate images from one file format to another, from one storage medium to another, and from film to digital Learn how to copyright images To identify and protect your images in the marketplace, having a solid asset management system is essential. *The DAM Book* offers the best approach.

[Charlie and the Chocolate Factory](#) Pearson UK

Willy Wonka's famous chocolate factory is opening at last! But only five lucky children will be allowed inside. And the winners are: Augustus Gloop, an enormously fat boy whose hobby is eating; Veruca Salt, a spoiled-rotten brat whose parents are wrapped around her little finger; Violet Beauregarde, a dim-witted gum-chewer with the fastest jaws around; Mike Teavee, a toy pistol-toting gangster-in-training who is obsessed with television; and Charlie Bucket, Our Hero, a boy who is honest and kind, brave and true, and good and ready for the wildest time of his life!

Pale Blue Dot "O'Reilly Media, Inc."

One day, a little cricket is born and meets a big cricket who chirps his welcome. But the little cricket cannot make a sound. The cricket meets many insects, but it isn't until he meets a beautiful female cricket that he can finally chirp "hello!" Excerpt: Hello! whispered a praying mantis, scraping its huge front legs together. The little cricket wanted to answer, so he rubbed his wings together. But nothing happened. Not a sound.

[The Crosswords Club Collection](#) Puzzlewright

Transforming the Workforce for Children Birth Through Age 8

Another Word for Murder

Celebrate Earth Day with Dr. Seuss and the Lorax in this classic picture book about protecting the environment! I am the Lorax. I speak for the trees. Dr. Seuss's beloved story teaches kids to speak up and stand up for those who can't. With a recycling-friendly "Go Green" message, *The Lorax* allows young readers to experience the beauty of the Truffula Trees and the danger of taking our earth for granted, all in a story that is timely, playful and hopeful. The book's final pages teach us that just one small seed, or one small child, can make a difference.

Printed on recycled paper, this book is the perfect gift for Earth Day and for any child—or child at heart—who is interested in recycling, advocacy and the environment, or just loves nature and playing outside. Unless someone like you cares a whole awful lot, nothing is going to get better. It's not. "Pretty much all the stuff you need to know is in Dr. Seuss." —President Barack Obama

[Anagram Solver](#) Independently Published

Note: This is the 3rd edition. If you need the 2nd edition for a course you are taking, it can be found as a "other format" on amazon, or by searching its isbn: 1534970746 This gentle introduction to discrete mathematics is written for first and second year math majors, especially those who intend to teach. The text began as a set of lecture notes for the discrete mathematics course at the University of Northern Colorado. This course serves both as an introduction to topics in discrete math and as the "introduction to proof" course for math majors. The course is usually taught with a large amount of student inquiry, and this text is written to help facilitate this.

Four main topics are covered: counting, sequences, logic, and graph theory. Along the way proofs are introduced, including proofs by contradiction, proofs by induction, and combinatorial proofs. The book contains over 470 exercises, including 275 with solutions and over 100 with hints. There are also Investigate! activities throughout the text to support active, inquiry based learning. While there are many fine discrete math textbooks available, this text has the following advantages: It is written to be used in an inquiry rich course. It is written to be used in a course for future math teachers. It is open source, with low cost print editions and free electronic editions. This third edition brings improved exposition, a new section on trees, and a bunch of new and improved exercises. For a complete list of changes, and to view the free electronic version of the text, visit the book's website at discrete.openmathbooks.org

Prius Or Pickup? Createspace Independent Publishing Platform

Two award-winning political scientists provide the psychological key to America's deadlocked politics, showing that we are divided not by ideologies but something deeper: personality differences that appear in everything from politics to parenting to the workplace to TV preferences, and which would be innocuous if only we could decouple them from our noxious political debate. What's in your garage: a Prius or a pickup? What's in your coffee cup: Starbucks or Dunkin' Donuts? What about your pet: cat or dog? As award-winning political scholars Marc Hetherington and Jonathan Weiler explain, even our smallest choices speak volumes about us--especially when it comes to our personalities and our politics. Liberals and conservatives seem to occupy different worlds because we have fundamentally different worldviews: systems of values that can be quickly diagnosed with a handful of simple parenting questions, but which shape our lives and decisions in the most elemental ways. If we're to overcome our seemingly intractable differences, Hetherington and Weiler show, we must first learn to master the psychological impulses that give rise to them, and to understand how politicians manipulate our mindsets for their own benefit. Drawing on groundbreaking original research, Prius or Pickup? is an incisive, illuminating study of the fracturing of the American mind.

Another Word for Murder John Wiley & Sons

An encyclopedia designed especially to meet the needs of elementary, junior high, and senior high school students.

How the Other Half Lives Colchis Books

Hungry Planet "O'Reilly Media, Inc."

In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll.

"Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among Grit's most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Wondrously personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).

Posing Lady "O'Reilly Media, Inc."

Another Word for Murder Open Road Media

The Everything Kids' Hidden Pictures Book Simon and Schuster

The Word on College Reading and Writing Random House Digital, Inc.

INSTANT NEW YORK TIMES BESTSELLER "Feeney lives up to her reputation

as the "queen of the twist"...This page-turner will keep you guessing." -Real Simple Think you know the person you married? Think again... Things have been wrong with Mr and Mrs Wright for a long time. When Adam and Amelia win a weekend away to Scotland, it might be just what their marriage needs. Self-confessed workaholic and screenwriter Adam Wright has lived with face blindness his whole life. He can't recognize friends or family, or even his own wife. Every anniversary the couple exchange traditional gifts--paper, cotton, pottery, tin--and each year Adam's wife writes him a letter that she never lets him read. Until now. They both know this weekend will make or break their marriage, but they didn't randomly win this trip. One of them is lying, and someone doesn't want them to live happily ever after. Ten years of marriage. Ten years of secrets. And an anniversary they will never forget. Rock Paper Scissors is the latest exciting domestic thriller from the queen of the killer twist, New York Times bestselling author Alice Feeney.

Lemon Child NorthSouth Books

Lust. Mystery. Betrayal. Weston Cavendish. My brother's best friend. I'd perfected the art of pretending that I didn't want him, that he didn't affect me every time he was near. Or so I thought. When his world comes crashing down, I'm the one he turns to, and I can't deny my feelings any longer. I know there's something between us. Until he finds out that I've been hiding things from him, too. Broken and betrayed, can we pick up the pieces and work together to expose the truth? The odds are stacked against us. But I won't give up without a fight. The Fight In Us is a standalone story, but is best enjoyed after the previous three books in the series. This mature new adult romance may contain triggers for some readers.

The Life-Changing Magic of Tidying Up Bloomsbury Publishing

If you're vexed and perplexed by PowerPoint, pick up a copy of Fixing PowerPoint Annoyances. This funny, and often opinionated, guide is chock full of tools and techniques for eliminating all the problems that drive audiences and presenters crazy. There's nothing more discouraging than an unresponsive audience--or worse, one that snickers at your slides. And there's nothing more maddening than technical glitches that turn your carefully planned slide show into a car wreck. Envious when you see other presenters effectively use nifty features that you've never been able to get to work right? Suffer no more! Fixing PowerPoint Annoyances by Microsoft PowerPoint MVP Echo Swinford rides to the rescue. Microsoft PowerPoint is the most popular presentation software on the planet, with an estimated 30 million presentations given each day. So no matter how frustrated you get, you're not about to chuck the program in the Recycle Bin. Fixing PowerPoint Annoyances, presents smart solutions to a variety of all-too-familiar, real-world annoyances. The book is divided into big categories, with annoyances grouped by topic. You can read it cover to

cover or simply jump to the chapter or section most relevant to you. Inside its pages you'll learn how to create your own templates, work with multiple masters and slide layouts, and take advantage of various alignment and formatting tools. You'll also learn how to import Excel data; insert graphics, PDF, and Word content; create, edit, and format organization charts and diagrams; use action settings and hyperlinks to jump to other slides; and add sound, video, and other types of multimedia to spark up your presentations. Entertaining and informative, Fixing PowerPoint Annoyances is filled with humorous illustrations and packed with sidebars, tips, and tricks, as well as links to cool resources on the Web.
