In September 1943, the German army marched into Rome, beginning an occupation that would last nine months until Allied forces liberated the ancient city. During those 270 days, clashing factions -- the occupying Germans, the Allies, the growing resistance movement, and the Pope -- contended for control over the destiny of the Eternal City. In *The Battle for Rome*, Robert Katz vividly recreates the drama of the occupation and offers new information from recently declassified documents to explain the intentions of the rival forces. One of the enduring myths of World War II is the legend that Rome was an "open city," free from military activity. In fact the German occupation was brutal, beginning almost immediately with the first roundup of Jews in Italy. Rome was a strategic prize that the Germans and the Allies fought bitterly to win. The Allied advance up the Italian peninsula from Salerno and Anzio in some of the bloodiest fighting of the war was designed to capture the Italian capital. Dominating the city in his own way was Pope Pius XII, who used his authority in a ceaseless effort to spare Rome, especially the Vatican and the papal properties, from destruction. But historical documents demonstrate that the Pope was as concerned about the Partisans as he was about the Nazis, regarding the Partisans as harbingers of

Communism in the Eternal City. The Roman Resistance was a coalition of political parties that agreed on little beyond liberating Rome, but the Partisans, the organized military arm of the coalition, became increasingly active and effective as the occupation lengthened. Katz tells the story of two young Partisans, Elena and Paolo, who fought side by side, became lovers, and later played a central role in the most significant guerrilla action of the occupation. In retaliation for this action, the Germans committed the Ardeatine Caves Massacre, slaying hundreds of Roman men and boys. The Pope's decision not to intervene in that atrocity has been a

debate among historians for decades, but drawing on Vatican documents, Katz authoritatively examines the matter. Katz takes readers into the occupied city to witness the desperate efforts of the key actors: OSS undercover agent Peter Tompkins, struggling to forge an effective spy network among the Partisans; German diplomats, working against their own government to save Rome even as they condoned the Nazi repression of its citizens; Pope Pius XII, anxiously trying to protect the Vatican at the risk of depending on the occupying Germans, who maintained order by increasingly draconian measures; and the U.S.

and British commanders, who disagreed about the best way to engage the enemy, turning the final advance into a race to be first to take Rome. The *Battle for Rome* is a landmark work that draws on newly released documents and firsthand testimony gathered over decades to offer the finest account yet of one of the most dramatic episodes of World War II.

The American Civil Liberties Union partners with award-winning authors Michael Chabon and Ayelet Waldman in this "forceful, beautifully written" (Associated Press) collection that brings together many of our greatest living writers, each contributing an original piece inspired by a historic ACLU case. On January 19, 1920, a small group of idealists and visionaries, including Helen Keller, Jane Addams, Roger Baldwin, and Crystal Eastman, founded the American Civil Liberties Union. A century after its creation, the ACLU remains the nation's premier defender of the rights and freedoms guaranteed by the Constitution. In collaboration

with the ACLU, authors Michael Chabon and Ayelet Waldman have curated an anthology of essays “full of struggle, emotion, fear, resilience, hope, and triumph” (Los Angeles Review of Books) about landmark cases in the organization’s one-hundred-year history. *Fight of the Century* takes you inside the trials and the stories that have shaped modern life. Some of the most prominent cases that the ACLU has been involved in—*Brown v. Board of Education*, *Roe v. Wade*, *Miranda v. Arizona*—need little introduction. Others you may never even have heard of, yet their outcomes quietly defined the world we live in now. Familiar or little-known, each case springs to vivid life in the hands of the acclaimed writers who dive into the history, narrate their personal experiences, and debate the questions at the heart of each issue. Hector Tobar introduces us to Ernesto Miranda, the felon whose wrongful conviction inspired the now-

iconic Miranda rights—which the police would later read to the man suspected of killing him. Yaa Gyasi confronts the legacy of *Brown v. Board of Education*, in which the ACLU submitted a friend-of-the-court brief questioning why a nation that has sent men to the moon still has public schools so unequal that they may as well be on different planets. True to the ACLU’s spirit of principled dissent, Scott Turow offers a blistering critique of the ACLU’s stance on campaign finance. These powerful stories, along with essays from Neil Gaiman, Meg Wolitzer, Salman Rushdie, Ann Patchett, Viet Thanh Nguyen, Louise Erdrich, George Saunders, and many more, remind us that the issues the ACLU has engaged over the past one hundred years remain as vital as ever today, and that we can never take our liberties for granted. Chabon and Waldman are donating their advance to the ACLU and the contributors are forgoing payment.

The sweeping story of the city of Rome, told through twenty-two moments that shaped its history. ***A TimesHistory Book of the Year*** 'Vivid, pacey ... Superb'The Times.
'Grand narrative underpinned by serious reading'Guardian.
'Confident, elegant ... Admirably ambitious'Daily Mail. From Romulus and Remus to the films of Fellini, Rome has always exerted a hold on the world's imagination. Now Ferdinand Addis brings the city of Rome to life by concentrating on vivid episodes from its long and unimaginably rich history. Each beautifully composed chapter is an evocative, self-contained narrative, whether it is the

murder of Caesar; the near-destruction of the city by the Gauls in 387 BC; the construction of the Colosseum and the fate of the gladiators; Bernini's creation of the Baroque masterpiece that is St Peter's Basilica; the brutal crushing of republican dreams in 1849; the sinister degeneration of Mussolini's first state, or the magical, corrupt Rome of Fellini's *La Dolce Vita*. This is an epic, kaleidoscopic history of a city indelibly associated with republicanism and dictatorship, Christian orthodoxy and its rivals, high art and low life in all its forms. REVIEWS FOR ROME: 'Superb ... Rome's history is written in bloodand Addis, who has a vivid, pacey writing

style, spares not the squeamish as he describes three millennia of violence from the first kings to Il Duce' The Times. 'This is a confident, elegant account of the city's progress ... [Addis's] version is admirably ambitious and succeeds splendidly in a task that would daunt lesser authors' Daily Mail. '[Addis] brings Rome's history alive through grand narrative... The snappy paragraphs are underpinned by serious reading ... Addis's chosen formula is to serve up selected highlights but to come at them from quirky angles' Guardian. 'From its ancient foundation to the Second World War, via Gauls, ghettos and gladiators, its 22 chapters focus on the themes of

individuals, myths and beliefs' BBC World Histories. 'He brings the myth of Rome alive by concentrating on vivid episodes from its rich history. This is a book about people, and their experiences, prejudices and beliefs' Oxford Times. **The Poisoning of an American High School** Simon and Schuster In New American Stories, the beautiful, the strange, the melancholy, and the sublime all come together to show the vast range of the American short story . Paris. The name alone

conjures images of

chestnut-lined

boulevards, sidewalk

cafés, breathtaking

façades around every

corner--in short, an

exquisite romanticism

that has captured the

American imagination for

as long as there have

been Americans. In 1995,

Adam Gopnik, his wife,

and their infant son left

the familiar comforts and

hassles of New York City

for the urbane glamour of

the City of Light. Gopnik

is a longtime New Yorker

writer, and the magazine

has sent its writers to

Paris for decades--but his

was above all a personal

pilgrimage to the place

that had for so long been

the undisputed capital of

everything cultural and

beautiful. It was also the

opportunity to raise a child

who would know what it

was to romp in the

Luxembourg Gardens, to

enjoy a croque monsieur

in a Left Bank café--a

child (and perhaps a

father, too) who would

have a grasp of that

Parisian sense of style we

Americans find so elusive.

So, in the grand tradition

of the American abroad,

Gopnik walked the paths

of the Tuileries, enjoyed

philosophical discussions

at his local bistro, wrote

as violet twilight fell on the

arrondissements. Of

course, as readers of

Gopnik's beloved and award-winning "Paris Journals" in The New Yorker know, there was also the matter of raising a child and carrying on with day-to-day, not-so-fabled life. Evenings with French intellectuals preceded middle-of-the-night baby feedings; afternoons were filled with trips to the Musée d'Orsay and pinball games; weekday leftovers were eaten while three-star chefs debated a "culinary crisis." As Gopnik describes in this funny and tender book, the dual processes of navigating a foreign city and becoming a parent are not completely dissimilar journeys--both hold new routines, new languages, a new set of rules by which everyday life is

lived. With singular wit and insight, Gopnik weaves the magical with the mundane in a wholly delightful, often hilarious look at what it was to be an American family man in Paris at the end of the twentieth century. "We went to Paris for a sentimental reeducation-I did anyway-even though the sentiments we were instructed in were not the ones we were expecting to learn, which I believe is why they call it an education."

If it can happen in Beverly Hills, it can happen anywhere. The Poisoning of an American High School is a feat of investigative reportage and the product

of four years of research by award-winning journalist Joy Horowitz. Making lucid the tangled issues of public health, regulation, and the political power of industry, it tells a riveting tale ripped from newspaper headlines--a cancer cluster affecting graduates of one of America's most affluent schools, Beverly Hills High. The Poisoning of an American High School presents the behind-the-scenes saga of the 2003 landmark toxic tort suit, in which more than one thousand plaintiffs, with the sensational Erin Brockovich as their champion, claimed their illnesses could be traced to exposure to the oil derricks just yards from school grounds.

BESTSELLER A

marvelous new novel

from the Pulitzer Prize-

winning author of *The*

Lowland and *Interpreter*

of *Maladies*--her first in

nearly a decade. Jhumpa

Lahiri's ravishing new

novel follows an

unnamed narrator in an

unnamed city. In the arc

of one year, in the middle

of her life's journey, she

realizes that she's lost

her way. Whereabouts

celebrates ordinary life and community while exploring existential themes of presence and absence. Lahiri's narrator, a woman questioning her place in the world, wavers between stasis and movement, between the need to belong and a refusal to form lasting ties. The city she calls home acts as her companion and interlocutor: traversing the streets around her house, and in parks, piazzas, museums, stores, and coffee bars, she feels less alone. We follow her to the pool she frequents, and to the train station that leads to her mother, who is mired in her own solitude after her husband's untimely death. Among those who appear on this woman's

path are colleagues with whom she feels ill at ease, casual acquaintances, and "him," a shadow who both consoles and unsettles her. Until one day at the sea, both overwhelmed and replenished by the sun's vital heat, her perspective will abruptly change. *Whereabouts* is an exquisitely nuanced portrait of urban solitude, one that shimmers with beauty and possibility. It is also a thrilling departure for Jhumpa Lahiri, her first novel written in Italian as well as the first time she has self-translated a full-length work. The reader will find the qualities that make Lahiri's work so beloved: deep intelligence and feeling, richly textured physical and emotional landscapes, and a poetics

of dislocation. But this novel, a play of shadow and light, also signals a bold shift of style and sensibility, and an artist reveling in a new form.

"One of the most beautiful novels I have ever read."

--New York Times Book

Review A stunning, powerful

novel about a couple that

pushes against traditional

expectations, moving with

their dogs to the Irish

countryside where they

embed themselves in nature

and make attempts to

disappear from society. It is

the winter following the

summer they met. A couple,

Bell and Sigh, move into a

remote house in the Irish

countryside with their dogs.

Both solitary with

misanthropic tendencies, they

leave the conventional lives

stretched out before them to

build another--one embedded

in ritual, and away from the

friends and family from whom

they've drifted. They arrive at their new home on a clear January day and look up to appraise the view. A mountain gently and unspectacularly ascends from the Atlantic, "as if it had accumulated stature

over centuries. As if, over centuries, it had steadily

flattened itself upwards." They make a promise to climb the

mountain, but--over the course of the next seven years--it

remains unclimbed. We move

through the seasons with Bell

and Sigh as they come to

understand more about the

small world around them, and

as their interest in the wider

world recedes. Seven

Steeple is a beautiful and

profound meditation on the

nature of love and the

resilience of nature. Through

Bell and Sigh, and the life they

create for themselves, Sara

Baume explores what it means

to escape the traditional paths

laid out before us--and what it

means to evolve in devotion to

another person, and to the

landscape.

"These essays gather up Rome and hold it before us, bristling and dense

and dreamlike, with every scene drenched in the sound of fountains, of leaping and falling water.” — The New Yorker

“Perhaps the finest book ever to be written about a city.” — New York Times

Bringing to life the legendary city's beauty and magic in all its many facets, Eleanor Clark's masterful collection of vignettes, *Rome and a Villa*, has transported readers for generations. In 1947 a young American woman named Eleanor Clark went to Rome on a Guggenheim fellowship to write a novel. But instead of a novel, Clark created a series of sketches of Roman life written mostly between 1948 and 1951. Wandering the streets of this legendary city, Eleanor fell under Rome's

spell—its pace of life, the wry outlook of its men and women, its magnificent history and breathtaking contribution to world culture. Rome is life itself—a sensuous, hectic, chaotic, and utterly fascinating blend of the comic and the tragic. Clark highlights Roman art and architecture, including Hadrian's Villa—an enormous, unfinished palace—as a prism to view the city and its history, and offers a lovely portrait of the Cimitero acattolico—long known as the Protestant cemetery—where Keats, Shelley, and other foreign notables rest.
