In the run-up to a contentious 2020 presidential election, the much-maligned American voter may indeed be wondering, "How did we get here?" A Citizen's Guide to the Political Psychology of Voting offers a way of thinking about how voters make decisions that provides both hope and concern. In many ways, voters may be able to effectively process vast amounts of information in order to decide which candidates to vote for in concert with their ideas, values, and priorities. But human limitations in information processing must give us pause. While we all might think we want to be rational information processors, political psychologists recognize that most of the time we do not have the time or the motivation to do so. The question is, can voters do a "good enough" job even if they fail to account for everything during the campaign? Evidence suggests that they can, but it isn't easy. Here, Redlawsk and Habegger portray a wide variety of voter styles and approaches—from the most motivated and engaged to the farthest removed and disenchanted—in vignettes that connect the long tradition of voter survey research to real life voting challenges. They explore how voters search for political information and make use of it in evaluating candidates and their positions. Ultimately, they find that American

voters are reasonably competent in making well-enough informed vote choices efficiently and responsibly. For citizen voters as well as students and scholars, these results should encourage regular turnout for elections now and in the future.

Four Seasons By: Han-Jae Lee This essay collection recounts the modern and contemporary history of Korea through the life of the author. Korea was a poorly

developed country that was devastated during the Japanese colonial period in the early 20th century, followed by liberation, and the Korean War. In the process, there was a time when many Korean people gathered their strength to create something out of nothing in order to escape poverty. And now, Korea is standing shoulder to shoulder with developed countries. Korea has achieved not only political democratization and remarkable economic development in a relatively short period of time in recent decades, but also Korean literature is making remarkable progress toward globalization in many ways. The following essays describe various elements of rural life in Korea as a child, life in a large city in Seoul as a youth and living abroad as an adult. Before writing this essay collection, he compiled seven poetry and essay collections in Korean and English, and published them in Korea and the United States. Advance praise for Four Seasons Han-Jae Lee's, Four Seasons is an engaging collection of essays that recount the author's experiences as a native Korean coming of age in a poor rural area, going on to lead a prosperous career as a working man for a large corporation, fathering children, traveling around the globe and spending time in the United States. Lee's observations about both past and present life are touching and astute. A poet at heart, his reflections are tender and poignant, as he covers a wide range of topics, from tending a cow as a young man to his influences in literature and writing, to the old customs in Korea to new information technologies. Relationships, both intimate and professional are examined. Reading Four Seasons cover to cover, you will be entertained throughout. — Magdalena Montagne, poet-teacher
The Four Seasons is a distillation of the author's life. In providing vignettes of his life both in prose and poetry, Han-Jae Lee presents the reader with the thoughts and impressions of a life rich in experience tempered by wisdom. This will not be a book that you only read once, but several times because you will always find something new and instructive in its pages. — Alexander E. Braun, author of The Adventure of the Maiden Voyage
