All My Rage Tor Teen
Captivating and action-packed, From Blood and Ash is a sexy, addictive, and unexpected fantasy perfect for fans of Sarah J. Maas and Laura Thalassa. A Maiden... Chosen from birth to usher in a new era,

Poppy ' s life has never been forsaken by the gods and feared by mortals, her own. The life of the Maiden is solitary. Never to be touched. Never to be looked upon. Never to be spoken to. Never to experience pleasure. Waiting for the day of her Ascension, she would rather be with the guards, fighting back the evil that took her family, than preparing to be found worthy by the gods. But the choice has never been hers. A Duty... The entire kingdom ' s future rests on Poppy ' s shoulders, something she ' s not even quite sure she wants for herself. Because a Maiden has a heart. And a soul. And longing. And when Hawke, a golden-eyed guard honor bound to ensure her Ascension, enters her life, destiny and duty become tangled with desire and need. He incites her anger, makes her question everything she believes in, and tempts her with the forbidden. A

fallen kingdom is rising once more, determined to take back what they believe is theirs through violence and vengeance. And as the shadow of those cursed draws closer, the line between what is forbidden and what is right becomes blurred. Poppy is not only on the verge of losing her heart and being found unworthy by the gods, but also her life when every blood-soaked thread that holds her world together begins to unravel. “Steinke's sense of this small Texas town, with its explosive and interconnected lives and deaths, is absolutely

masterful.” —Elizabeth Gilbert A

big, moving novel of one tight-knit Texas community and the

events that alter its residents' lives forever. Friendswood, Texas,

is a small Gulf Coast town of church suppers, oil rigs on the horizon, hurricane weather, and

high school football games. When tragedy rears its head with an

industrial leak that kills and sickens residents, it pulls on the

common thread that runs through the community, intensifying

everything. From a confused fifteen-year-old girl beset by

visions, to a high school football star tormented by his actions, to a

mother galvanized by the death of her teen daughter, to a morally

bankrupt father trying to survive his mistakes, Ren é Steinke

explores what happens when families are trapped in the ambiguity of history's missteps—when the actions of a few change the lives and well-being of many. Driving the narrative powerfully forward is the suspenseful question of the fates of four Friendswood families, and Steinke's striking insight and empathy. Inspired in part by the town where she herself grew up, this layered, propulsive, psychologically complex story is poignant proof that extreme public events, as catastrophic as they might seem, must almost always pale in comparison to the intimate personal experiences and motivations of grief, love, lust, ambition, anxiety, and regret.

This book takes a historical and anthropological approach to understanding how non-human hosts and vectors of diseases are understood, at a time when emerging infectious diseases are one of the central concerns of global health. The volume critically examines the ways in which animals have come to be framed as 'epidemic villains' since the turn of the nineteenth century. Providing epistemological and social histories of non-human epidemic blame, as well as ethnographic perspectives on its recent manifestations, the essays explore

this cornerstone of modern epidemiology and public health alongside its continuing importance in today's world. Covering diverse regions, the book argues that framing animals as spreaders and reservoirs of infectious diseases — from plague to rabies to Ebola — is an integral aspect not only to scientific breakthroughs but also to the ideological and biopolitical apparatus of modern medicine. As the first book to consider the impact of the image of non-human disease hosts and vectors on medicine and public health, it offers a major contribution to our understanding of human-animal interaction under the shadow of global epidemic threat.
