Twenty years later, Kirsten moves between the settlements of the altered world with a small troupe of actors and musicians. They call themselves The Traveling Symphony, and they have dedicated themselves to keeping the remnants of art and humanity alive. But when they arrive in St. Deborah by the Water,

Tibetan Book of the Dead Faber & Faber
Slowly I learnt the ways of humans: how to ruin, how to hate, how to debase, how to humiliate. And at the feet of my master I learnt the highest of human skills, the skill no other

creature owns: I finally learnt how to lie. Childlike in his innocence but grotesque in form, Frankenstein's bewildered creature is cast out into a hostile universe by his horror-struck maker. Meeting with cruelty wherever he goes, the friendless Creature, increasingly desperate and vengeful, determines to track down his creator and strike a terrifying deal. Urgent concerns of scientific responsibility, parental neglect, cognitive development and the nature of good and evil are embedded within this thrilling and deeply disturbing classic gothic tale. Mary Shelley's *Frankenstein*, adapted for the stage by Nick Dear, premiered at the National Theatre, London, in February 2011.

Things Fall Apart Penguin

A thoroughly revised and updated edition of Thomas C. Foster's classic guide—a lively and entertaining introduction to literature and literary basics, including symbols, themes, and

contexts—that shows you how to make your everyday reading experience more rewarding and enjoyable. While many books can be enjoyed for their basic stories, there are often deeper literary meanings interwoven in these texts. *How to Read Literature Like a Professor* helps us to discover those hidden truths by looking at literature with the eyes—and the literary codes—of the ultimate professional reader: the college professor. What does it mean when a literary hero travels along a dusty road? When he hands a drink to his companion? When he's drenched in a sudden rain shower? Ranging from major themes to literary models, narrative devices, and form, Thomas C. Foster provides us with a broad overview of literature—a world where a road leads to a quest, a shared meal may signify a communion, and rain, whether cleansing or destructive, is never just a shower—and shows us how to make our reading experience more enriching, satisfying, and fun. This revised edition includes new chapters, a new preface, and a new

epilogue, and incorporates updated teaching points that Foster has developed over the past decade.

A childhood in a privileged household in 1950s Havana was joyous and cruel, like any other-but with certain differences. The neighbour's monkey was liable to escape and run across your roof. Surfing was conducted by driving cars across the breakwater. Lizards and firecrackers made frequent contact. Carlos Eire's childhood was a little different from most. His father was convinced he had been Louis XVI in a past life. At school, classmates with fathers in the Batista government were attended by chauffeurs and bodyguards. At a home crammed with artifacts and paintings, portraits of Jesus spoke to him in dreams and nightmares. Then, in January 1959, the world changes: Batista is suddenly gone, a cigar-smoking guerrilla has taken his place, and Christmas is cancelled. The echo of firing squads is everywhere. And, one by one, the author's schoolmates begin to

disappear-spirited away to the United States. Carlos will end up there himself, without his parents, never to see his father again. Narrated with the urgency of a confession, **WAITING FOR SNOW IN HAVANA** is both an ode to a paradise lost and an exorcism. More than that, it captures the terrible beauty of those times in our lives when we are certain we have died-and then are somehow, miraculously, reborn.

The Jungle is a 1906 novel written by the
American journalist and novelist Upton
Sinclair (1878–1968). Sinclair wrote the novel
to portray the lives of immigrants in the United
States in Chicago and similar industrialized
cities. Many readers were most concerned with
his exposure of health violations and unsanitary
practices in the American meatpacking industry
during the early 20th century, based on an
investigation he did for a socialist newspaper.
The book depicts working class poverty, the

lack of social supports, harsh and unpleasant living and working conditions, and a hopelessness among many workers. These elements are contrasted with the deeply rooted corruption of people in power. A review by the writer Jack London called it, "the Uncle Tom's Cabin of wage slavery." Sinclair was considered a muckraker, or journalist who exposed corruption in government and business. He first published the novel in serial form in 1905 in the Socialist newspaper, *Appeal to Reason*, between February 25, 1905, and November 4, 1905. In 1904, Sinclair had spent seven weeks gathering information while working incognito in the meatpacking plants of the Chicago stockyards for the newspaper. It was published as a book on February 26, 1906 by Doubleday and in a subscribers' edition.

Mary Shelley began writing *Frankenstein* when she was only eighteen. At once a Gothic thriller, a passionate romance, and a cautionary tale about the dangers of science, *Frankenstein* tells the story of committed science student Victor Frankenstein. Obsessed with discovering the cause of generation and life and bestowing animation upon lifeless matter, Frankenstein assembles a human being from stolen body parts but; upon bringing it to life, he recoils in horror at the creature's hideousness. Tormented by isolation and loneliness, the once-innocent creature turns to evil and unleashes a campaign of murderous revenge against his creator, Frankenstein. *Frankenstein*, an instant bestseller and an important ancestor of both the horror and science fiction genres, not only tells a

terrifying story, but also raises profound, disturbing questions about the very nature of life and the place of humankind within the cosmos: What does it mean to be human? What responsibilities do we have to each other? How far can we go in tampering with Nature? In our age, filled with news of organ donation genetic engineering, and bio-terrorism, these questions are more relevant than ever.

Waiting For Snow In Havana Saqi
