This celebrated masterpiece is Oscar Wilde's only novel. A mesmerizing tale of horror and suspense, it has endured due to its artful prose and the philosophical questions it raises, as well as the scandal it caused upon its initial publication in 1890. Written in his distinctively dazzling manner and combining aspects of a Gothic horror novel and decadent French fiction, Wilde forges a devastating account of the effects of evil and depravity on a fashionable young man in late 19th century England who sells his soul in exchange for eternal youth and beauty. A concept that Wilde derived from the German legend of Faust, Gray is the subject of a portrait by painter Basil Hallward who deems his subject's beauty to be inconceivably great. Rather than having to age himself, an egotistical Dorian wishes for the painting to age instead of him so that he can retain his youthful good looks. Gray plunges into a life of vice and debauchery with its sole aim being pleasure. His body retains perfect youth and vigor while the portrait changes day by day into a ghastly chronicle of evil, documenting each of his sins with its appearance, which he must keep hidden from the world. This spellbinding novel tale that warns its readers of the dangers that come with narcissism, self-indulgence, and ignorance still ranks as one of Wilde's most important works. Of Gray's relationship to him, Wilde noted "Basil Hallward is what I think I am: Lord Henry what the world thinks me: Dorian what I would like to be—in other ages, perhaps."

The Strange Case of Dr. Jekyll and Mr. Hyde is about a London lawyer named Gabriel John Utterson who investigates strange occurrences between his old friend, Dr. Henry Jekyll, and the evil Edward Hyde. There are two personalities within Dr. Jekyll, one apparently good and the other evil; completely opposite levels of morality. The novel's impact is such that it has become a part of the language, with the very phrase "Jekyll and Hyde" coming to mean a person who is vastly different in moral character from one situation to the next. 'The Strange Case of Dr. Jekyll and Mr. Hyde' is a thrilling Gothic horror novel. John Utterson, a prosecutor, is on his weekly walk with his relative, who proceeds to tell him of an encounter with a man he had seen some months ago while coming home late at night from Cavendish Place. The tale describes a sinister figure named Edward Hyde who tramples a young girl, disappears into a door on the street, and re-emerges to pay off her relatives with 10 pounds in gold and a cheque signed by respectable gentleman Dr. Henry Jekyll (a client and friend of Utterson's) for 90 pounds. Jekyll had recently and suddenly changed his will to make Hyde the sole beneficiary. This development concerns and disturbs Utterson, who makes an effort to seek out Hyde. Utterson fears that Hyde is blackmailing Jekyll for his money. Upon finally managing to encounter Hyde, Hyde's ugliness, as if deformed, amazes Utterson. Although Utterson cannot say exactly how or why, Hyde provokes an instinctive feeling of revulsion in him. Much to Utterson's surprise, Hyde willingly offers Utterson his address. After one of Jekyll's dinner parties, Utterson stays behind to discuss the matter of Hyde with Jekyll. Utterson notices Jekyll turning pale, yet he assures Utterson that everything involving Hyde is in order and that he is to be left alone.

Frankweiler. When Claudia decided to run away, she planned very carefully. She would be gone just long enough to teach her parents a lesson in Claudia appreciation. And she would go in comfort—she would live at the Metropolitan Museum of Art. She saved her money, and she invited her brother Jamie to go, mostly because he was a miser and would have money. Claudia was a good organizer and Jamie had some ideas, too; so the two took up residence at the museum right on schedule. But once the fun of settling in was over, Claudia had two unexpected problems: She felt just the same, and she wanted to feel different; and she found a statue at the Museum so beautiful she could not go home until she had discovered its maker, a question that baffled the experts, too. The former owner of the statue was Mrs. Basil E. Frankweiler. Without her—well, without her, Claudia might never have found a way to go home.

In boyhood, Louis Zamperini was an incorrigible delinquent. As a teenager, he channeled his defiance into running, discovering a prodigious talent that had carried him to the Berlin Olympics. But when World War II began, the athlete became an airman, embarking on a journey that led to a doomed flight on a May afternoon in 1943. When his Army Air Forces bomber crashed into the Pacific Ocean, against all odds, Zamperini survived, adrift on a foundering life raft. Ahead of Zamperini lay thousands of miles of open ocean, leaping sharks, thirst and starvation, enemy aircraft, and, beyond, a trial even greater. Driven to the limits of endurance, Zamperini would answer desperation with ingenuity; suffering with hope, resolve, and humor; brutality with rebellion. His fate, whether triumph or tragedy, would be suspended on the fraying wire of his will. Hiroko steps out onto the veranda. Her body from neck down a silk column, white with three black cranes swooping across her back. She looks out towards the mountains, and everything is more beautiful to her than it was early this morning. Nagasaki is more beautiful to her than ever before. She turns her head and sees the spires of Urakami Cathedral, which Konrad is looking up at when he notices a gap open between the clouds. Sunlight streams through, pushing the clouds apart even further. Hiroko. And then the world goes white. —From

Burnt Shadows by Kamila Shamsie -- The morning of August 9, 1945 breaks dreary and unspectacular in the city of Nagasaki. Nonetheless, twenty-one year-old Hiroko Tanaka is elated: she is in love. Her emerging romance with the displaced German Konrad Weiss offers release from the greyness of wartime deprivation. In this time of heightened xenophobia, their affair must be kept secret, particularly as Hiroko's father has recently been outcast for questioning the patriotism of sending children on kamikaze missions. As Hiroko and Konrad furtively plan for a future after the war, there is no way they can comprehend the unspeakable devastation bearing down upon them. Two years later, Hiroko arrives in Delhi at the home of Konrad's sister Ilse and his brother-in-law James Burton. Upon Hiroko's back are crane-shaped scars, seared into her skin when her kimono was incinerated by the bomb. She is on the run from unbearable memories, as well as from the stigma of being branded a hibakusha, a survivor of the bomb. Ilse, in an uncharacteristically impulsive move, welcomes Hiroko into her home, seeing in the brave young woman a possibility of release from her own conscripted existence. Hiroko quickly destabilizes the frigid hierarchy of the household, much to the relief of Sajjad Ashraf, James's bored servant. Tensions are running high in the Mohalla with the looming partition of India and Pakistan. Will Sajjad remain in his beloved Dilli/Delhi, or depart with so many others for the promise of Pakistan? Sajjad's family has secured for him a wife, and he yearns for a legal career, still half-clinging to the hope that James will assist him. But James's only use for him is as a chess opponent, an idle distraction as the Raj winds to a close. The Burtons are preparing to decamp for England, having already dispatched their son Harry to boarding school. But what James does not know is that Ilse is making other plans. A romance blooms between Hiroko and Sajjad, much to the incredulity of the Burtons, whose own emotional lives have become entwined in the futures of their charismatic young charges. Despite outbursts of jealousies and a terrible act of betrayal, the Burtons nevertheless assist Hiroko and Sajjad in their flight to married life in Istanbul. Later the Ashrafs will move to Karachi to raise their son, Raza. The lives of the Ashrafs and the Burtons will remain entwined for decades, though in ways they cannot anticipate. Across continents and through geopolitical flux, each family will continue to act as a catalytic force upon the other, sometimes in life-saving ways, and sometimes causing great peril. Why is it that some bonds flourish in times of crisis, and why do some fail? What defines the character that survives the cruelest of circumstances? And how is it that entire populations can support unspeakable acts en masse, while relating as individuals with compassion? Longlisted for the prestigious Orange Prize for Fiction, Kamila Shamsie's *Burnt Shadows* is an enthralling meta-cultural epic, the panoramic tale of two families tangled together in some of the most devastating conflicts of modern history. Frankenstein Thrift Study Edition Random House Digital, Inc. Mary Shelley began writing *Frankenstein* when she was only eighteen. At once a Gothic thriller, a passionate romance, and a cautionary tale about the dangers of science, *Frankenstein* tells the story of committed science student Victor Frankenstein. Obsessed with discovering the cause of generation and life and bestowing animation upon lifeless matter, Frankenstein assembles a human being from stolen body parts but; upon bringing it to life, he recoils in horror at the creature's hideousness. Tormented by isolation and loneliness, the once-innocent creature turns to evil and unleashes a campaign of murderous revenge against his creator, Frankenstein. *Frankenstein*, an instant bestseller and an important ancestor of both the horror and science fiction genres, not only tells a terrifying story, but also raises profound, disturbing questions about the very nature of life and the place of humankind within the cosmos: What does it mean to be human? What responsibilities do we have to each other? How far can we go in tampering with Nature? In our age, filled with news of organ donation genetic engineering, and bio-terrorism, these questions are more relevant than ever.
