This collection of WWI sketches of the Fifth Marine Regiment is "forthright, unsparing, deeply felt but unsentimental, and reads like a house afire" (The Wall Street Journal). From a soldier who was there, here are first-hand accounts of combat and camaraderie during the Great War. In a series of stories and illustrations, Capt. John W. Thomason captures the bravery and gallantry of the leathernecks fighting the Germans in France—putting readers in the trenches, facing the staccato of rifle fire, feeling the pangs of starvation, and the demoralizing fatigue. This collection is a tribute to the men who lived and breathed the motto "Semper Fidelis", or "Always Faithful", those who made the ultimate sacrifice and those who made it out alive.

"Fix Bayonets! is in the company of Tolstoy and Crane and Bierce in the literature of war. Indeed, I should leave Crane out of it... The Red Badge of Courage cannot stand the fierce sun of Fix Bayonets!"

Colonel G.W.L. Nicholson's Canadian

Expeditionary Force, 1914-1919 was first published by the Department of National Defence in 1962 as the official history of the Canadian Army's involvement in the First World War. Immediately after the war ended Colonel A. Fortescue Duguid made a first attempt to write an official history of the war, but the ill-fated project produced only the first of an anticipated eight volumes. Decades later, G.W.L.

Nicholson — already the author of an official history of the Second World War — was commissioned to write a new official history of the First. Illustrated with numerous photographs and full-colour maps, Nicholson's text offers an authoritative account of the war effort, while also discussing politics on the home front, including debates around conscription in 1917. With a new critical introduction by Mark Osborne Humphries that traces the development of Nicholson's text and analyzes its legacy, *Canadian Expeditionary Force, 1914-1919* is an essential resource for both professional historians and military history enthusiasts.

Greatly to be welcomed. This meticulously researched and richly documented account provides fresh insights into theological controversy and social prejudice and should be read by all serious students of the Victorian Church. Greatly to be welcomed. Richard Sharp The Rev. Dr John Hunt (1827-1907) was not a typical clergyman in the Victorian Church of England. He was Scottish, of lowly birth, and lacking both social connections and private means. He was also a witty and fluent intellectual, whose publications stood alongside the most eminent of his peers during a period when theology was being redefined in the light of Darwin's *Origin of Species* and other radical scientific advances. Hunt attracted notoriety and conflict as well as admiration and respect: he was the subject of articles in *Punch* and in the wider press concerning his clandestine dissection of a fetus in the crypt of a City church, while his *Essay on Pantheism* was proscribed by the Roman Catholic Church. He had many skirmishes with incumbents, both evangelical and catholic, and was dismissed from several of his curacies. This book analyses his career in London and St Ives (Cambs.) through the lens of his autobiographical narrative, *Clergymen Made Scarce* (1867). David Yeandle has examined a little-known copy of the text that includes manuscript annotations by Eliza Hunt, the wife of the author, which offer unique insight into the many anonymous and pseudonymous references in the text. A Victorian Curate: A Study of the Life and Career of the Rev. Dr John Hunt is an absorbing personal account of the corruption and turmoil in the Church of England at this time. It will appeal to anyone interested in this history, the relationship between science and religion in the nineteenth century, or the role of the curate in Victorian England.

The theme of the conference at which the papers in this book were presented was 'Systems Thinking in Europe'. Members of the United Kingdom Systems Society (UKSS) were conscious that the systems movement flourishes not only in the UK, America and the Antipodes, but also in continental Europe, both East and West, and in the USSR, a nation increasingly being welcomed by the European comity. Membership of the UKSS had not perhaps had the opportunity, however, of hearing important new ideas from continental Europe, and this conference provided an opportunity to do so. Some interesting papers are to be found here from both the West and the East, if the editors may be forgiven for perpetuating what may be an increasingly irrelevant dichotomy. One lesson to be learned from this conference, though, is that systems thinking is truly international. This is not to say that there is one systems paradigm uniformly applied, however. Perhaps the core of systems thinking is that one is interested in complex 'wholes' with emergent properties, to which cybernetic ideas can be applied. Examples of such systems thinking can be found in these proceedings, for example in the section entitled "Applications of Systems Thinking". Attempts to bring about change with these ideas, however, have given rise to a diversity of approaches, as is evidenced by the papers dealing with the application of methodologies in the 'hard' and 'soft' systems traditions.

Many books have been written about Appalachia, but few have voiced its concerns with the warmth and directness of this one. From hundreds of interviews gathered by the Appalachian Oral History Project, editors Laurel Shackelford and Bill Weinberg have woven a rich verbal tapestry that portrays the people and the region in all their variety. The words on the page have the ring of truth, for these are the people of Appalachia speaking for themselves. Here they recollect an earlier time of isolation but of independence and neighborliness. For a nearer time they tell of the great changes that took place in Appalachia with the growth of coal mining and railroads and the disruption of old ways. Persisting through the years and sounding clearly in the interviews are the dignity of the Appalachian people and their close ties with the land, despite the exploitation and change they have endured. When first published, *Our Appalachia* was widely praised. This new edition again makes available an authentic source of social history for all those with an interest in the region.

The winners of the Nobel Prize show how economics, when done right, can help us solve the thorniest social and political problems of our day. Figuring out how to deal with today's critical economic problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and

inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with lucidity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world.

An instant classic and eerily prescient cultural phenomenon, from "the patron saint of feminist dystopian fiction" (New York Times). Now an award-winning Hulu series starring Elizabeth Moss. In this multi-award-winning, bestselling novel, Margaret Atwood has created a stunning Orwellian vision of the near future. This is the story of Offred, one of the unfortunate "Handmaids" under the new social order who have only one purpose: to breed. In Gilead, where women are prohibited from holding jobs, reading, and forming friendships, Offred's persistent memories of life in the "time before" and her will to survive are acts of rebellion. Provocative, startling, prophetic, and with Margaret Atwood's devastating irony, wit, and acute perceptive powers in full force, *The Handmaid's Tale* is at once a mordant satire and a dire warning.

This extract from Ovid's 'Theban History' recounts the confrontation of Pentheus, king of Thebes, with his divine cousin, Bacchus, the god of wine. Notwithstanding the warnings of the seer Tiresias and the cautionary tale of a character Acoetes (perhaps Bacchus in disguise), who tells of how the god once transformed a group of blasphemous sailors into dolphins, Pentheus refuses to acknowledge the divinity of Bacchus or allow his worship at Thebes. Enraged, yet curious to witness the orgiastic rites of the nascent cult, Pentheus conceals himself in a grove on Mt. Cithaeron near the locus of the ceremonies. But in the course of the rites he is spotted by the female participants who rush upon him in a delusional frenzy, his mother and sisters in the vanguard, and tear him limb from limb. The episode abounds in themes of abiding interest, not least the clash between the authoritarian personality of Pentheus, who embodies 'law and order', masculine prowess, and the martial ethos of his city, and Bacchus, a somewhat effeminate god of orgiastic excess, who revels in the delusional and the deceptive, the transgression of boundaries, and the blurring of gender distinctions. This course book

offers a wide-ranging introduction, the original Latin text, study aids with vocabulary, and an extensive commentary. Designed to stretch and stimulate readers, Gildenhard and Zissos's incisive commentary will be of particular interest to students of Latin at AS and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Ovid's poetry and discussion of the most recent scholarly thought.

Many of our current social problems have been attributed to the breakdown or loss of community as a place and to the fragmentation of connections due to an extreme value of individualism in the Western world, particularly in the United States. Not all scholars and researchers agree that individualism and technology are the primary culprits in the loss of community as it existed in the middle decade of the 20th century. Nonetheless, people exist in groups, and connections are vital to their existence and in the daily performance of activities. The second edition of the *Sociology of Community Connections* will identify and help students understand community connectedness in the present and future.

The U.S. military has been continuously engaged in foreign conflicts for over two decades. The strains that these deployments, the associated increases in operational tempo, and the general challenges of military life affect not only service members but also the people who depend on them and who support them as they support the nation "their families. Family members provide support to service members while they serve or when they have difficulties; family problems can interfere with the ability of service members to deploy or remain in theater; and family members are central influences on whether members continue to serve. In addition, rising family diversity and complexity will likely increase the difficulty of creating military policies, programs and practices that adequately support families in the performance of military duties. *Strengthening the Military Family Readiness System for a Changing American Society* examines the challenges and opportunities facing military families and what is known about effective strategies for supporting and protecting military children and families, as well as lessons to be learned from these experiences. This report offers recommendations regarding what is needed to strengthen the support system for military families.
