In 1973 Daniel Meadows, fresh out of art school, bought a double-decker bus and set off round England in search of ordinary people to photograph. In the course of his journey he offered free portrait sessions in 22 different towns, developing the black and white prints inside the bus, in which he also lived. He photographed 958 people, alone or in groups. A quarter of a century later Meadows came across the bus photographs in his archive and was struck by how fresh they were. With the help of the local press in various towns, he went in search of the original sitters. Many could not be found and some had died, but a number of people turned up to be re-photographed. Meadows interviews the sitters who talk candidly about their lives, their friends, their loves, their families and the future—providing a moving accompaniment to Meadows' own journey through time.

A lawyer, social critic, and columnist at The American Prospect, Wendy Kaminer has said that she likes to think words have power but knows they don't cast spells. She argues with her readers and expects them to argue back. Her taste for liberty, her legal training, wit, and innate contrarianism help her elude the usual political labels and inform her writings on censorship, feminism, pop psychology, religion, criminal justice, and a range of rights and liberties at issue in the culture wars. In this new collection, Kaminer has her sights set on the fate of civil liberties in America. Opening with a powerful overview of liberty's tenuous hold on this "land of the free," Kaminer offers incisive, original investigations of political freedom in our frightened, post-September 11 world and reviews perennial threats to sexual and religious

liberty, free speech, privacy, and the right to be free from unwarranted, unprincipled prosecutions.
