By his early thirties, Paul Allen was a world-famous billionaire-and that was just the beginning. In 2007 and 2008, Time named Paul Allen, the cofounder of Microsoft, one of the hundred most influential people in the world. Since he made his fortune, his impact has been felt in science, technology, business, medicine, sports, music, and philanthropy. His passion, curiosity, and intellectual rigor-combined with the resources to launch and support new initiatives-have literally changed the world. In 2009 Allen discovered that he had lymphoma, lending urgency to his desire to share his story for the first time. In this classic memoir, Allen explains how he has solved problems, what he's learned from his many endeavors-both the triumphs and the failures-and his compelling vision for the future. He reflects candidly on an extraordinary life. The book also features previously untold stories about everything from the true origins of Microsoft to Allen's role in the dawn of private space travel (with SpaceShipOne) and in discoveries at the frontiers of brain science. With honesty, humor, and insight, Allen tells the story of a life of ideas made real.

Car and Driver Chilton's Total Car Care Repair Bird Skin Coat is brimming with startling moments of beauty found within a rusty and decayed landscape. With wild lyrical images of ascent and descent—doves and dives, sparrows and slugs, attics and cellars—this collection reflects Sorby's keen eye for blending images. As they shuttle between the Upper Midwest and the Pacific Northwest, these poems explore how the radical instability of the world is also the source of its energy.
