problems is perhaps the great challenge of our time. Much greater than space travel or perhaps even the next revolutionary medical breakthrough, what is at stake is the whole idea of the good life as we have known it. Immigration and inequality, globalization and technological disruption, slowing growth and accelerating climate change--these are sources of great anxiety across the world, from New Delhi and Dakar to Paris and

Washington, DC. The resources to address these challenges are there--what we lack are ideas that will help us jump the wall of disagreement and distrust that divides us. If we succeed, history will remember our era with gratitude; if we fail, the potential losses are incalculable. In this revolutionary book, renowned MIT economists Abhijit V. Banerjee and Esther Duflo take on this challenge, building on cutting-edge research in economics explained with

clarity and grace. Original, provocative, and urgent, *Good Economics for Hard Times* makes a persuasive case for an intelligent interventionism and a society built on compassion and respect. It is an extraordinary achievement, one that shines a light to help us appreciate and understand our precariously balanced world. *Broadcast Announcing Worktext Elsevier Health Sciences Popular Mechanics* inspires,

The sight of the kilted Highland regiment has always struck such fear into their Germans opponents of both World Wars; known to their Teutonic

foes as the “ Ladies from Hell ” for their attire and fighting prowess. The memories of those brave Celtic Warriors fighting across the mud of Flanders remains in the swirl of the bagpipe laments, faded pictures and memoirs from their ranks. The letters of two brothers Alexander and Thomas Gillespie still do survive, from the lowlands of Scotland, volunteered to serve in the British Army almost as soon as the war broke out leaving behind a career in law and academia respectively. They did not long have to wait to be thrown into the holocaust of the front lines; Tom

was posted to the King ’ s Own Scottish Borderers and was immediately under the shellfire of the battle of the Marne and the Race to the sea before he was killed in action on October 18 1914 near La Bass é e. Despite his brother ’ s ultimate sacrifice Alexander went forward to the front in February 1915 with the 2nd Battalion of the Argyll and Sutherland Highlanders. He led his men forward, as part of the first wave of the great push of the 19th Brigade on Cambrin Road, into the horrific shellfire and gas at the opening of the battle of Loos on the 25th
