covers all of the others in a little detail. It's just to get a basic idea of what the kind of vehicles you may be driving and what different rules you have to follow depending on the vehicle. Air Brakes - is a written test (section 5 of your state CDL manual) that deals strictly with the braking system on heavy vehicles you'll be driving. It informs you on the lack of air pressure in the system during normal driving, which is referred to as brake lag distance. It also deals with the drivers perception distance, reaction distance, which do effect the time it

will take to stop loaded vehicle, and what will happen in a skid.
