Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's

founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system,

ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal. Classic American Ambulances & Funeral Vehicles Veloce Publishing Ltd

Discover the secrets of the iconic vehicles from the Marvel Comics universe. They may be best known for getting around on their own steam, but sometimes even Marvel Super Heroes need some extra torque. This Haynes Manual takes a look at the amazing vehicles of the Marvel Comics universe, from the X-Men 's supersonic jet, The Blackbird, to the mighty Helicarrier that transports the Avengers into battle and the Green Goblin 's preferred method of travel, the Goblin Glider. Also covering less well-known modes of transport like Spider-Man 's custom beach buggy, the Spider-Mobile, this lavishly illustrated book forms a comprehensive guide to the iconic vehicles that have helped make the

Published to coincide with the 60th anniversary of the 250F 's debut and first World Championship success this new Haynes manual captures the best of this car. The Maserati 250F is one of the classic grand prix cars of all time and won F1 World Championships in 1954 and 1957, both in the hands of Juan Manuel Fangio. Stirling Moss, who won the 1956 Monaco Grand Prix in a 250F, described the car as the nicest front-engined F1 car he drove during his career. Here, in this new Haynes Manual, is a unique perspective on what it takes to restore, maintain and race a Maserati 250F, as well as an

insight into the design, engineering, and development and period race history of this iconic racing car.

Popular Mechanics Lulu.com

This book is the complete practical guide to repairing and renovating classic car bodywork for the amateur repairer. Illustrated throughout with step-by-step photo sequences, it describes how to undertake high-quality repairs at a fraction of the cost of that charged by an automotive bodyshop or restoration specialist – from removing a scratch to fitting a new body panel. The techniques shown demystify the 'black art' of bodywork repair, using commonly available tools and materials to achieve professional results. An essential guide for anyone looking to restore or maintain a classic car on a budget.
