More than anything in the world, Andrew

wants freckles. His classmate Nicky has freckles -- they cover his face, his ears, and the whole back of his neck. (Once sitting behind him in class, Andrew counted eighty-six of them, and that was just a start! One day after school, Andrew screws up enough courage to ask Nicky where he got his freckles. And, as luck would have it, who should overhear him but giggling, teasing Sharon (who makes frog faces at everybody!) Sharon offers Andrew her secret freckle juice recipe -- for fifty cents. That's a lot of money to Andrew -- five whole weeks allowance! He spends a sleepless night, torn between his desire for freckles and his reluctance to part

with such a substantial sum of money. Finally, the freckles win, and Andrew decides to accept Sharon's offer. After school, Andrew rushes home (with the recipe tucked into his shoe for safekeeping). He carefully begins to mix the strange combination of ingredients -- and immediately runs into some unforeseen problems. How Andrew finally manages to achieve a temporary set of freckles -- and then isn't sure he really wants them -- makes a warm and hilarious story.

This award-winning novel about a conflict between a British woman and an Indian man amid the stirrings of rebellion against empire is “a revelation” (The New York Times). One of Time magazine's 100 best English

language novels published since 1923, one of the Modern Library's 100 great works of twentieth-century English literature, and the winner of the James Tait Black Memorial Prize “By the time the great Edwardian novelist, in this last and best of his novels published in his lifetime, addressed himself to the British presence in India, his moral sense was more fully equipped than ever. Mindful of the imponderables of human conduct, alert to all the reciprocal

misjudgments and the wearying false appraisals we make as a matter of course, he looked at empire and saw its weak foundations. Adela Quested is a British visitor to the Raj who is anxious to know ‘the real India.’ On a visit to the Malabar caves an assault of some kind does or does not happen to her, perhaps at the hands of Dr. Aziz, the solicitous Indian Muslim who has arranged the trip. Has she imagined things? Is he not what he seems? In his other great novel,

Howards End, Forster directed us to ‘only connect.’ What he demonstrates here, in a story of the greatest and saddest subtleties—and comic subtleties, too—is how nearly impossible that is to do.” —Time

A classic fable of a talkative turtle.
Numbers and Counting Pearson Education India
A sweeping epic of the American

frontier and the brave few who risked their lives for the promise of glory and limitless fortunes For Americans in the early nineteenth century, the uncharted western frontier signified both great opportunity and grave danger. Bold pioneers left the civilized Eastern Seaboard in droves, seeking riches and reinvention. Trekking across the continent's vast plains and rivers, they faced the threat of disease, wild animals, and violence from

Native Americans who resented this invasion into their land. In this stunningly dynamic novel, author Cameron Judd portrays one such perilous journey down the Ohio River through the eyes of sixteen-year-old Celinda Ames. During the Ames family's trip to Natchez—one of the earliest settlements in what is now Mississippi—both of Celinda's parents die from infection. Left to fend for herself, Celinda encounters an array of seamy characters drawn to the lawless West, like the malevolent Harpe brothers—arguably America's first serial killers—who prowl the river robbing and murdering unsuspecting travelers. This enthralling narrative leads up to the powerful earthquake of 1811 that jolted the Midwest, upended the region's budding civilizations, and changed the course of migration to the West. With an unflinching eye, Judd evokes the dangers of the frontier with vivid clarity and illustrates the exhilarating adventures of those who dared to conquer it.
