The thoroughly revised and updated fourth edition of Foodservice Manual for Health Care Institutions offers a review of the

management and operation of health care foodservice departments. This edition of the book—which has become the standard in the field of institutional and health care foodservice—contains the most current data on the successful management of daily operations and includes information on a wide range of topics such as leadership, quality control, human resource management, product selection and purchasing, environmental issues, and financial management. This new edition also contains information

on the practical operation of the foodservice department that has been greatly expanded and updated to help institutions better meet the needs of the customer and comply with the regulatory agencies' standards. TOPICS COVERED INCLUDE:
Leadership and Management Skills
Marketing and Revenue-Generating Services
Quality Management and Improvement
Planning and Decision Making
Organization and Time Management
Team Building
Effective Communication
Human Resource
