How do the rich get rich? An updated edition of the “remarkable” New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park

Avenue. They live next door. America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as “rich” are actually a tiny minority of America's truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, *The Millionaire*

Next Door was a groundbreaking examination of America's rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. “Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today's earn-and-consume culture.” —*Library Journal*

marketing guru Al

Ries and his daughter and partner Laura divulge the revolutionary strategies needed to successfully build your company, product or service into a profitable brand using the internet. The Internet is the first major new communication medium to be introduced since television and businesses ignore it at their peril. If the Internet is going to take its place alongside the other major media it will be because it exploits a powerful new attribute - interactivity. The Internet will make

traditional forms of branding, such as conventional advertising, redundant. In order to succeed in branding on the net, the message to customers must be interactive. Al and Laura Ries examine this dilemma and explain how their other revolutionary principles can help your company to build a brand on the net. Like the 22 Immutable Laws of Marketing and the 22 Immutable Laws of Branding, this will be a smart snappy read full of practical advice and marketing savvy. The authors will use

anecdotes from their own consulting business with top companies to illustrate how Internet branding really works. *Start Your Own Import/Export Business* Haynes Manuals N. America, Incorporated "Technology is rapidly moving

into our bodies," writes cyber expert Keenan, "and this book gives a chilling look ahead into where that road may lead us - on a one way trip to the total surrender of privacy and the commoditization of intimacy." Here is the definitive dissection of privacy-eroding and life-invading technologies, coming at you from governments, corporations, and the person next door. Take, for example, "Girls Around Me": a Russian-made iPhone App that allowed anyone to scan the immediate vicinity

for girls and women who checked in on Foursquare and had poorly secured Facebook profiles. It combined this information in a way never intended by the original poster. Going to a Disney theme park? Your creepy new "MagicBand" will alert Minnie Mouse that you're on the way and she'll know your kid's name when you approach her. Thinking about sending your DNA off to Ancestry.com for some "genetic genealogy"? Perhaps you should think again:

your genetic information could be used against you. "This masterful weaving of the negatives and positives of technology makes for a book that is realistic about technology's perils yet optimistic about it's great potential."--Foreword

Professional technicians have relied on the Chilton Labor Guide estimated

repair times for decades. This latest edition expands on that reliability by including technical hotline feedback and research from professional labor experts. The labor times reflect actual vehicle conditions found in the aftermarket, including rust, wear and grime. Available in both hardcover and CD-ROM, this completely revised manual provides thousands of labor times for 1981 through current year domestic and imported vehicles. All times reflect technicians' use of aftermarket tools and training.
