"RIGHT"? AND WHO GETS TO DECIDE? To be a content moderator is to see humanity at its worst—but Kayleigh needs money. So she takes a job working for a social media platform whose name she isn't allowed to mention. Her task: review offensive videos and pictures, rants and conspiracy theories, and decide which need to be removed. It's grueling work. Kayleigh and her colleagues spend all day watching horrors and hate on their screens, evaluating them with the platform's ever-changing moderating guidelines. Yet Kayleigh is good at her job, and she finds in her colleagues a group of friends—even a new girlfriend—and for the first time in her life, her future seems bright. But soon the job seems to change them all, shifting their worlds in alarming ways. How long before the moderators' own senses of right and wrong begin to bend and flex? From one of the most acclaimed Dutch writers of her generation, *We Had to Remove This Post* is a chilling, powerful, and urgent literary masterpiece about who or what determines our worldview, who sets the boundaries, and just how much a person can be asked to accept.

A renowned Harvard professor's brilliant, sweeping, inspiring account of the role of

justice in our society--and of the moral dilemmas we face as citizens What are our obligations to others as people in a free society? Should government tax the rich to help the poor? Is the free market fair? Is it sometimes wrong to tell the truth? Is killing sometimes morally required? Is it possible, or desirable, to legislate morality? Do individual rights and the common good conflict? Michael J. Sandel's "Justice" course is one of the most popular and influential at Harvard. Up to a thousand students pack the campus theater to hear Sandel relate the big questions of political philosophy to the most vexing issues of the day, and this fall, public television will air a series based on the course. Justice offers readers the same exhilarating journey that captivates Harvard students. This book is a searching, lyrical exploration of the meaning of justice, one that invites readers of all political persuasions to consider familiar controversies in fresh and illuminating ways. Affirmative action, same-sex marriage, physician-assisted suicide, abortion, national service, patriotism and dissent, the moral limits of markets—Sandel dramatizes the challenge of thinking through these conflicts, and shows how a surer grasp of philosophy can help us make sense of politics, morality, and our own convictions as well. Justice is lively, thought-provoking, and wise—an essential new addition to the small shelf of books that speak convincingly to the hard questions of our civic life.

The devotion of the *Flame of Love of the Immaculate Heart of Mary* was given to the Church for the specific purpose of blinding Satan so that he loses his influence over our families, our communities—over all people. The movement began with the heart of the poor and humble Hungarian mystic and Third-Order Carmelite, Elizabeth Kindelmann (1913-1985), when she heard the voices of Jesus and Mary through interior locutions

between the years 1961 and 1983. The result is this *Spiritual Diary*, written at the request of Our Lord Jesus, which has received the Imprimatur of the Church and gifted the world untold blessings for our critical times. Jesus said to Kindelmann, "My Mother is Noah's Ark," and Mary told her, "I assure you, my little one, that I have never before given into your hands such a powerful force of grace, the burning flame of the love of my heart. Ever since the Word became Flesh, I have not undertaken a greater movement than the *Flame of Love of my heart* who rushes to you. Until now, nothing could blind Satan as much. And it is up to you not to reject it, for this rejection would simply spell disaster." The *Flame of Love* movement is an official Church association of the faithful, enjoying the heartfelt approval of His Eminence Cardinal Péter Erdő, Primate of Hungary, Archbishop of Eszertom-Budapest, and the approval of various bishops in whose dioceses it flourishes, as well as a 2013 apostolic blessing from Pope Francis. God is seeking to build up a holy army of souls in order help us to fight the battle ahead that leads to sure victory for those firm in faith. In this remarkable *Spiritual Diary*, you follow the life and divine conversations of one of the greatest mystics of the 20th century, learn of the prayers and weekly prayer schedule that effectively blind Satan, and of the divine promises Our Lord wishes to give to us through the intercession of His Mother's Immaculate Heart.

This compendium of projects, writings and interviews focuses on how the field of drawing expands synchronously alongside technological and computational

developments. This book critically reassess the act of drawing and where its future may lie. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas. Drawings seduce, and the drawings in this book are tantalising evidence of this. Yet the aim of the book is to illustrate how drawing works as an abundantly rich, diverse, inventive, critical and serious research domain. In this regard, it is a study of the point and promise of drawing; which both explores the microscopic detail of the craft and envisions the radical possibilities inherent in its expression. The academics, artists and architects whose work lies within conceive of drawing as a rigorous, liberating form of expression.

The earliest of the four Gospels, the book portrays Jesus as an enigmatic figure, struggling with enemies, his inner and external demons, and with his devoted but disconcerted disciples. Unlike other gospels, his parables are obscure, to be explained secretly to his followers. With an introduction by Nick Cave *Pacific Rim: Tales From Year Zero* Penguin

WrestleCrap: The Very Worst of Professional Wrestling examines some of the ridiculously horrible characters and storylines that pro wrestling promoters have subjected their fans to over the past twenty years. Why would any sane person think that having two grown

men fight over a turkey was actually a reasonable idea' Was George Ringo, the Wrestling Beatle, really the best gimmick that a major promotional organization could come up with' And who would charge fans to watch a wrestler named the Gobbeldy Gooker emerge from an egg' In an attempt to answer such questions and figure out just what the promoters were thinking, authors Randy Baer and R.D. Reynolds go beyond what wrestling fans saw on the screen and delve into the mindset of those in the production booth. In some instances, the motivations driving the spectacle prove even more laughable than what was actually seen in the ring. Covering such entertainment catastrophes as an evil one-eyed midget and a wrestler from the mystical land of Oz, not to mention the utterly comprehensible Turkey-on-a-Pole match (a gimmick which AWA fans might recall), *WrestleCrap* is hysterically merciless in its evaluation of such organizations as the WCW and the WWF. This retrospective look at the wrestling world's misguided attempts to attract viewers will leave wrestling fans and critics alike in stitches.

The State of Affairs Random House Trade Paperbacks Pulitzer prize-winner Chris Hedges charts the dramatic and disturbing rise of a post-literate society that craves fantasy, ecstasy and illusion. Chris Hedges argues that we now live in two societies: One, the minority, functions in a print-based, literate world, that can cope with complexity and can separate illusion from truth. The other, a growing majority, is retreating from a reality-based world into one of false certainty and magic. In this "other society," serious film and theatre, as well as

newspapers and books, are being pushed to the margins. In the tradition of Christopher Lasch's *The Culture of Narcissism* and Neil Postman's *Amusing Ourselves to Death*, Hedges navigates this culture – attending WWF contests as well as Ivy League graduation ceremonies – exposing an age of terrifying decline and heightened self-delusion. **How We Know What Isn't So** Canongate Books NEW YORK TIMES BESTSELLER • The bestselling author of *Morning Star* returns to the Red Rising universe with the thrilling sequel to *Iron Gold*. Roman Reigns Simon and Schuster Thomas Gilovich offers a wise and readable guide to the fallacy of the obvious in everyday life. When can we trust what we believe—that "teams and players have winning streaks," that "flattery works," or that "the more people who agree, the more likely they are to be right"—and when are such beliefs suspect? Thomas Gilovich offers a guide to the fallacy of the obvious in everyday life. Illustrating his points with examples, and supporting them with the latest research findings, he documents the cognitive, social, and motivational processes that distort our thoughts, beliefs, judgments and decisions. In a rapidly changing world, the biases and stereotypes that help us process an overload of complex information inevitably distort what we would like to believe is reality. Awareness of our propensity to make these systematic errors, Gilovich argues, is the first step to more effective analysis and action.

Number Games | 9/11 to Coronavirus
was written for the purpose of educating the people of the world about the agendas that are being carried out against us, and the very clear plan that went into motion in 1968, when coronavirus was coined, World Trade Center construction in New York began, and 9-1-1 was made the United States' national emergency dialing code. As the reader will learn,

these agendas, as well as many others that are related, have been executed by a numerical code, known as Gematria, and they are for the sake of building a surveillance state across the world, so that powerful interests can peer into and keep tabs on the lives of the masses, for the sake of continued power and control. *Number Games | 9/11 to Coronavirus* also names the parties responsible, with definitive evidence. To put it mildly, this is the type of book that the Vatican wishes was locked away in one of their vaults, but fortunately for the reader, it is not.
