At age 30, Joshua Fields Millburn left his six-figure career, ditched most of his material possessions, and started focusing on life's most important aspects. Once he embraced his newfound minimalist lifestyle, he never looked back. Suffice it to say, everything has changed in Millburn's life in the last three years. After his mother died in October 2009 and his marriage ended a month later, he began questioning everything in his life: his material possessions, his career, his goals, his health, his relationships, his path in life. Soon he discovered minimalism. In the three years since the author adopted a minimalist lifestyle, he has written more than 300 essays about minimalism and intentional living. He has written about his journey, his failures, his lessons, and everything he has learned during his transformation. *A Day in the Life of a Minimalist* is a collection of his best, most important individual writings--rethought and edited specifically for this collection. This 208-page book contains 50 essays about living a meaningful life with less stuff, including "The Short Guide to Getting Rid of Your Crap," "The Commodification of Love," "Letting Go of Shitty Relationships," and the title essay. Collectively, these essays are purposefully organized into nine sections--lifestyle, goals, experiments, clutter, relationships, changes, philosophy, consumer culture, and work--covering a variety of topics, viewpoints, and arguments within those themes. Also included are a special forward written by Colin Wright (the man who introduced Millburn to minimalism) and an introduction by Joshua Fields Millburn, as well as two unpublished essays that can't be found anywhere else: "What If Everyone Was a Minimalist?" and "Work-Life Balance." These essays were written to encourage readers to think critically about the excess in their lives and, ultimately, to take action towards living more intentionally. This collection is short enough to be read in a few sittings, or it can be digested slowly, reading one essay a day for nearly two months, applying its principals each day to your own life.

This volume offers new approaches to considering Italy's traumatic experiences through a wide array of media, including film, documentaries, docufiction, websites, YouTube videos, advertisements, newspapers, and literature, that have not yet been fully analyzed. It looks at the trauma inflicted on Italians not, simply, as national or cultural traumas but, rather, as the creation/identification of subnational and transnational communities shaped by these trauma cases. The term "subnational", or "transnational", community is used mostly in reference to human beings, as they form those communities; however, they are also connected to a specific place, namely Italy. In addition, whereas "things" cannot become traumatized, this book also considers "living things," such as the environment and the nature, which may create further trauma(s) for people.

Marilynne Robinson has built a sterling reputation as a writer of sharp, subtly moving prose, not only as a major American novelist, but also as a rigorous thinker and incisive essayist. In *When I Was a Child I Read Books* she returns to and expands upon the themes which have preoccupied her work with renewed vigor. In "Austerity as Ideology," she tackles the global debt crisis, and the charged political and social political climate in this country that makes finding a solution to our financial troubles so challenging. In "Open Thy Hand Wide" she searches out the deeply embedded role of generosity in Christian faith. And in "When I Was a Child," one of her most personal essays to date, an account of her childhood in Idaho becomes an exploration of individualism and the myth of the American West. Clear-eyed and forceful as ever, Robinson demonstrates once again why she is regarded as one of our essential writers.

Students and teachers will roar as Kenn Nesbitt pokes fun at silly school topics with dozens of wacky poems. Who knew school lunches and detention could be so funny? Kenn Nesbitt, that's who! Do you attend a school like the one Kenn Nesbitt describes in this hysterically funny collection of poems? There's a frenzied food fight in the cafeteria. For show-and-tell, kids burp the ABCs. Recently, "pet days" have been banned (and for good reason). And the funniest things happen when the teacher isn't looking. Kids and teachers rate these rhymes A+ (and you will, too). *Everybody's Poultry Magazine* Black Inc.

In this entertaining collection of essays, Wayne Booth looks for the much-maligned "middle ground" for reason—a rhetoric that can unite truths of the heart with truths of the head and allow us all to discover shared convictions in mutual inquiry. First delivered as lectures in the 1960s, when Booth was a professor at Earlham College and the University of Chicago, *Now Don't Try to Reason with Me* still resounds with anyone struggling for consensus in a world of us versus them. "Professor Booth's earnestness is graced by wit, irony, and generous humor." —Louis Coxe, *New Republic*

This collection of essays provides samplings of a theological engagement of culture that Paul Louis Metzger has been developing over the years in his work as founder and director of The Institute for the Theology of Culture: *New Wine, New Wineskins* at Multnomah Biblical Seminary of Multnomah University. Metzger espouses an incarnational over against a predominantly worldview-oriented or market-driven theological approach to engaging culture, and situates his work in Trinitarian communal and co-missional thought forms. This volume of biblically and theologically framed and compassion-driven essays addresses such themes as postmodernity, structural evil, cultural genocide, sexuality, HIV/AIDS, the prison system, the global slave trade, and the arts. It will be welcomed by those analyzing and developing theological-cultural paradigms and engaging key issues in the contemporary setting.

Debut albums are among the cultural artefacts that capture the popular imagination especially well. As a first impression, the debut album may take on a mythical status, whether the artist or group achieves enduring success or in rare cases when an initial record turns out to be an apogee for an artist. Whatever the subsequent career trajectory, the debut album is a meaningful text that can be scrutinized for its revelatory signs and the expectations that follow. *Please Allow Me to Introduce Myself: Essays on Debut Albums* tells the stories of 23 debut albums over a nearly fifty year span, ranging from Buddy Holly and the Crickets in 1957 to The Go! Team in 2004. In addition to biographical background and a wealth of historical information about the genesis of the album, each essay looks back at the album and places it within multiple contexts, particularly the artist's career development. In this way, the book will be of as much interest to sociologists and historians as to culture critics and musicologists.

How far should we go in protecting and promoting public health? Can we force people to give up unhealthy habits and make healthier choices, or does everyone have the right to decide their own lifestyle? Should we stop treating smokers who refuse to give up smoking? [...] Should parents be required to have their children vaccinated? [...] Such questions are at the heart of public health ethics. The author shows that to understand and debate these issues requires philosophy: moral philosophies, such as utilitarianism and deontology, as well as political philosophies such as liberalism and communitarianism. And philosophy informs other aspects of public health, such as epidemiology and health promotion. The aim of this book is to provide a lively, accessible and philosophically informed introduction to such issues. It is an ideal textbook for students taking courses in public health ethics. And since this book develops systematic

discussions of issues in public health ethics, there is also much here to engage and challenge the more advanced reader. [Ed.]

A Day in the Life of a Minimalist

From his first appearance as Mork from Ork on the 1970s sitcom Happy Days, Robin Williams was heralded as a singular talent. In the pre-cable television era, he was one of the few performers to successfully transition from TV to film. An Oscar-winning actor and preternaturally quick-witted comedian, Williams became a cultural icon, leaving behind a large and varied body of work when he unexpectedly took his own life in 2014. This collection of new essays brings together a range of perspectives on Williams and his oeuvre, including beloved hits like Mrs. Doubtfire, Good Morning, Vietnam, Good Will Hunting, The Fisher King, Dead Poets Society and Aladdin. Contributors explore his earlier work (Mork and Mindy, The World According to Garp) and his political and satirical films (Moscow on the Hudson, Toys). Williams's darker, less well-known fare, such as Being Human, One Hour Photo, Final Cut and Boulevard, is also covered. Williams's artistry has become woven into the fabric of our global media culture.

Winner of the 2018 National Book Critics Circle Award for Criticism A New York Times Notable Book From Zadie Smith, one of the most beloved authors of her generation, a new collection of essays Since she burst spectacularly into view with her debut novel almost two decades ago, Zadie Smith has established herself not just as one of the world's preeminent fiction writers, but also a brilliant and singular essayist. She contributes regularly to The New Yorker and the New York Review of Books on a range of subjects, and each piece of hers is a literary event in its own right.

Arranged into five sections--In the World, In the Audience, In the Gallery, On the Bookshelf, and Feel Free--this new collection poses questions we immediately recognize. What is The Social Network--and Facebook itself--really about? "It's a cruel portrait of us: 500 million sentient people entrapped in the recent careless thoughts of a Harvard sophomore." Why do we love libraries? "Well-run libraries are filled with people because what a good library offers cannot be easily found elsewhere: an indoor public space in which you do not have to buy anything in order to stay." What will we tell our granddaughters about our collective failure to address global warming? "So I might say to her, look: the thing you have to appreciate is that we'd just been through a century of relativism and deconstruction, in which we were informed that most of our fondest-held principles were either uncertain or simple wishful thinking, and in many areas of our lives we had already been asked to accept that nothing is essential and everything changes--and this had taken the fight out of us somewhat." Gathering in one place for the first time previously unpublished work, as well as already classic essays, such as, "Joy," and, "Find Your Beach," Feel Free offers a survey of important recent events in culture and politics, as well as Smith's own life. Equally at home in the world of good books and bad politics, Brooklyn-born rappers and the work of Swiss novelists, she is by turns wry, heartfelt, indignant, and incisive--and never any less than perfect company. This is literary journalism at its zenith. Zadie Smith's new book, Grand Union, is on sale 10/8/2019.
