Teaching 1st grade for the first

time, I was using whole-group

math with a single math center at

the end of our math block. Then

over Winter Break, our team felt

like something wasn't

working. While our students

were growing in math, it was

definitely not at the same rate of

their reading growth.

Student created math journals

for the entire year! These

interactive math notebooks are a

great way for Kinder through

Fourth Grade to practice math

skills in an interactive way.

These math notebooks cover

number sense, addition and

subtraction, graphing, shapes,

money, word problems, and so

much more!
