The book that will "blow you away" \*\* has a dazzling new look in paperback! Saba has spent her whole life in Silverlake, a dried-up wasteland ravaged by constant sandstorms. The Wrecker civilization has long been destroyed, leaving only landfills for Saba and her family to scavenge from. That's fine by her, as long as her beloved twin brother Lugh is around. But when four cloaked horsemen capture Lugh, Saba's world is shattered, and she embarks on a quest to get him back. Suddenly thrown into the lawless, ugly reality of the outside world, Saba discovers she is a fierce fighter, an unbeatable survivor, and a cunning opponent. Teamed up with a handsome daredevil named Jack and a gang of girl revolutionaries called the Free Hawks, Saba's

unrelenting search for Lugh stages a showdown that will change the course of her own civilization. Blood Red Road has a searing pace, a poetic writing style, and an epic love story—making Moira Young is one of the most exciting new voices in teen fiction.

Dead Wrong On January 23, 2000, already battered by an ice storm, the rural Alabama resort town of Mentone was about to be struck by an even more terrifying freak catastrophe. Hurling down the highway in a

Lincoln Town Car was Hayward Bissell, a 400-pound madman on a murder rampage. Ramming the pickup truck of Don and Rhea Pirch, Bissell lured Don Pirch on to the road, running him down with his car. Dead Reckoning Bissell next targeted the home of James and Sue Pumphrey. After stabbing James Pumphrey in the stomach, Bissell was thwarted by two family dogs, who gave their lives to protect their owners. Their sacrifice bought Pumphrey enough time to get a gun and scare off Bissell--who didn't know the weapon was actually inoperable. Dead End When Bissell was finally stopped, police discovered that he wasn't alone. Occupying the passenger seat beside him was the mutilated, partially dismembered body of his pregnant girlfriend, Patricia Ann Booher. In February 2002, Bissell pled "guilty but insane" and was sent to prison for life. Was he really crazy? Or was he crazy like a fox, turning it on and off to try to beat a death sentence for Booher's murder. . . Includes 16 Pages Of Shocking Photos

Set in 1954, Towles uses the story of two brothers to show that our personal journeys are never as linear or predictable as we might hope." —Bill Gates "A real joyride . . . elegantly constructed and compulsively readable." —NPR The bestselling author of *A Gentleman in Moscow* and *Rules of Civility* and master of absorbing, sophisticated fiction returns with a stylish and propulsive novel set in 1950s America In June, 1954, eighteen-year-old Emmett Watson is driven home to Nebraska by the warden of the juvenile work farm where he has just served fifteen months for involuntary manslaughter. His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction—to the City of New York.

Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes. "Once again, I was wowed by Towles's writing—especially because *The Lincoln Highway* is so different from *A Gentleman in Moscow* in terms of setting, plot, and themes. Towles is not a one-trick pony. Like all the best storytellers, he has range. He takes inspiration from famous hero's journeys, including *The Iliad*, *The Odyssey*, *Hamlet*, *Huckleberry Finn*, and *Of Mice and Men*. He seems to be saying that our personal journeys are never as linear or predictable as an interstate highway. But, he suggests, when something (or someone) tries to steer us off course, it is possible to take the wheel." — Bill Gates

Searching for even more wild places and new experiences, Dan became determined to explore 'off the map' in Africa. From the mighty Sahara Desert in the north to the dense equatorial jungles of the Congo and the open grasslands of Southern Africa, Dan turned his biggest dream into reality. Over the course of three years Dan's second major expedition spanned fifty-four thousand miles through thirty-five unique African countries. **THE ADVENTURE WAS A THOUSAND TIMES BIGGER THAN HE DREAMED POSSIBLE.** After exploring the Pan-American Highway from Alaska to Argentina Dan became hooked on the freedom of global overland travel, and he only wanted more. New languages, exotic foods, stunning landscapes and local people with an entirely different outlook became Dan's everyday life. As the months turned into years, through highlights and despair Dan gained a new appreciation for what it truly means to be alive. Viewing our modern world through African eyes gave Dan a new perspective, and he was pulled in by the endless joy, laughter and kindness at every turn. While the landscapes and wildlife are undeniably breathtaking, it is the natural warmth of the African people that is truly unforgettable. All across the continent Dan was welcomed with love and generosity, and now he will never be the same.

Issues for include section: Bituminous roads and streets. *The Fasting Highway: Graeme Currie from Australia Takes You on a Journey Through the Highs and Lows of Beating a Crippling Food Addiction* B All phases of road development â € "from construction and use by vehicles to maintenance â € "affect physical and chemical soil conditions, water flow, and air and water quality, as well as plants and animals. Roads and traffic can alter wildlife habitat, cause vehicle-related mortality, impede animal migration,

and disperse nonnative pest species of plants and animals. Integrating environmental considerations into all phases of transportation is an important, evolving process. The increasing awareness of environmental issues has made road development more complex and controversial. Over the past two decades, the Federal Highway Administration and state transportation agencies have increasingly recognized the importance of the effects of transportation on the natural environment. This report provides guidance on ways to reconcile the different goals of road development and environmental conservation. It identifies the ecological effects of roads that can be evaluated in the planning, design, construction, and maintenance of roads and offers several recommendations to help better understand and manage ecological impacts of paved roads.

"Construction plans for the reroute of Highway 55 through south Minneapolis sparked an environmental movement that pitted activists against public authorities in one of the most dramatic episodes in the city's history. Mary Losure was there: as a reporter for Minneapolis Public Radio she witnessed the neighborhood's transformation from a quiet street to the center of an emotionally charged standoff. Fueled by idealism and anger, a diverse coalition of Native Americans, neighborhood residents, and young anarchists banded together to try to stop the highway expansion. Beginning in 1998, this group sustained protests for more than a year and eventually faced an unprecedented show of force by law enforcement." "Through her detailed account of this struggle, Losure explores the roles of ecoanarchism and grassroots activism in the age of globalization. This subculture, brought to the spotlight during protests over the World Trade Organization in Seattle and Genoa, has been largely undocumented in the mainstream press. With a practical reporter's eye, Mary Losure portrays the activists' experiences and the establishment's view of them, ultimately revealing the power of the existing order and the fragility and absolute necessity of dissent." --BOOK JACKET. In the vein of the bestsellers *I'll Be Gone in the Dark* and *The Line Becomes a River*, a penetrating, deeply moving account of the missing and murdered indigenous women and girls of Highway 16, and a searing indictment of the society that failed them. For decades, Indigenous women and girls have gone missing or been found murdered along an isolated stretch of highway in northwestern British Columbia. The corridor is known as the Highway of Tears, and it has come to symbolize a national crisis. Journalist Jessica McDiarmid meticulously investigates the devastating effect these tragedies have had on the families of the victims and their communities, and how systemic racism and indifference have created a climate in which Indigenous women and girls are overpoliced yet underprotected. McDiarmid interviews those closest to the victims—mothers and fathers, siblings and friends—and provides an intimate firsthand account of their loss and unflagging fight for justice. Examining the historically fraught social and cultural tensions between settlers and Indigenous peoples in the region, McDiarmid links these cases to others across Canada—now estimated to number up to four

thousand—contextualizing them within a broader examination of the undervaluing of Indigenous lives in the country. Highway of Tears is a piercing exploration of our ongoing failure to provide justice for the victims and a testament to their families' and communities' unwavering determination to find it.
