This is a compelling biography of one of India's most controversial and consequential public figures. V.K. Krishna Menon continues to command our attention not just because he was Jawaharlal Nehru's confidant and soulmate but also for many of his own political and literary accomplishments. A relentless crusader for Indian independence in the UK in the 1930s and 1940s, he was a global star at the United Nations in the 1950s before he was forced to resign as defence minister in the wake of the India-China war of 1962. Meticulously researched and based entirely on new archival material, this book reveals Krishna Menon in all his capabilities and contradictions. It is also a rich history of the tumultuous times in which he lived and which he did so much to shape.

The 22nd International Free Electron Laser Conference and 7th FEL User Workshop were held August 13-18, 2000 at Washington Duke Inn and Golf Club in Durham, North Carolina, USA. The conference and the workshop were hosted by Duke University's Free Electron laser (FEL) Laboratory. Following tradition, the FEL prize award was announced at the banquet. The year 2000 FEL prize was awarded to

three scientists propelling the limits of high power FELs: Steven Benson, Eisuke Minehara and George Neill. The conference program was comprised of traditional oral sessions on First Lasing, FEL theory, storage ring FELs, linac and high power FELs, long wavelength FELs, SASE FELs, accelerator and FEL physics and technology, and new developments and proposals. Two sessions on accelerator and FEL physics and technology reflected the emphasis on the high quality of accelerators and components for modern FELs. The breadth of the applications was presented in the workshop oral sessions on materials processing, biomedical and surgical applications, physics and chemistry as well as on instrumentation and methods for FEL applications. A special oral session was dedicated to FEL center status reports for users to learn more about the

opportunities with FELs. As usual, the oral sessions were supplemented by poster sessions with in-depth discussions and communications. The FEL physicists and FEL users had excellent opportunities to interact throughout the duration of the event, culminating a Joint Sessions. The year 2000 was very successful being marked by lasing with two SASE and one storage ring short-wavelength FELs, and by the first human surgery with the use of FEL, to mention but a few. The International Program Committee and chairs of the sessions had the challenging and exciting problem of selecting invited and contributed talks for the conferences and the workshop from the influx of abstracts mentioning new results and ideas. The success of the conference was determined by these contributions. Scientists

from 15 countries gave 70 talks, presented 176 posters and submitted 146 papers, which are published in the present volume of proceedings.

Much-Afraid had been in the service of the Chief Shepherd, whose great flocks were pastured down in the Valley of Humiliation. She lived with her friends and fellow workers Mercy and Peace in a tranquil little white cottage in the village of Much-Trembling. She loved her work and desired intensely

to please the Chief Shepherd, but happy as she was in most ways, she was conscious of several things which hindered her in her work and caused her much secret distress and shame. Here is the allegorical tale of Much-Afraid, an every-woman searching for guidance from God to lead her to a higher place.

Paper 1 2021 Cengage Learning

In 1998, Satya opened to widespread critical acclaim. At a time when Bollywood was still rediscovering romance, Ram Gopal Varma's film dared to imagine the ordinary life of a Mumbai gangster. It kicked off a new wave of Hindi gangster films that depicted a vital, gritty side of Mumbai, rarely shown in mainstream cinema until then. More than two decades later, it has become an iconic film. When it was released, the regular moviegoer would have been hard-pressed to recognise more than a couple of names in the film's credits. Today, it reads like an honour roll - Anurag Kashyap, Manoj Bajpayee, Vishal Bhardwaj, Saurabh Shukla. Speaking to the people who made Satya a landmark film, Uday Bhatia tells the incredible story of how it all came together, how it drew from the gangster and

street film traditions, and why it went on to become a modern classic.

The unruly Brahmaputra has

always been an agent in

shaping both the landscape

of its valley and the

livelihoods of its

inhabitants. But how much

do we know of this river's

rich past? Historian

Arupjyoti Saikia's

biography of the

Brahmaputra reimagines the

layered history of Assam

with the unquiet river at the

centre. The book combines a

range of disciplinary

scholarship to unravel the

geological forces as well as

human endeavour which

have shaped the river into what it is today. Wonderfully illuminated with archival detail and interwoven with narratives and striking connections, the book allows the reader to imagine the Brahmaputra's course in history. This evocative and compelling book will be interesting reading for anyone trying to understand the past and the present of a river confronted by the twenty-first century's ambitious infrastructural designs to further re-engineer the river and its landscape.
