Subaru Legacy (10-16) & Forester (09-16) Haynes Manuals N. America, Incorporated

There is renewed interest in the Moon in recent years, with the news that a Chinese lunar rover landed on the Moon in January 2014, and NASA announcing that it is looking for private partners to land a robot on the Moon's surface, as the first step in a programme to exploit the commercial opportunities offered by the

Moon. Recent lunar expeditions by both orbiting spacecraft and 'landers' have uncovered far more detail about the Moon's surface and geology, including the trail of Neil Armstrong's first walk on the Moon in 1969. This manual explains in simple and straightforward terms, with a wealth of illustrations and photographs, what we have discovered about the Moon over the centuries, along with a general overview of the vehicles involved in the exploration.

**Harley-Davidson Sportster '70 to '13** Haynes Publishing UK  
With the aid of more than 1,000 detailed illustrations and text aimed at the do-it-yourselfer, this book describes and illustrates: how to renovate bodywork and chassis; how to strip out and replace interiors; how to give new life to mechanical and electrical components; what to look for when buying a Land Rover, and more. **Haynes Mini 1969 to 2001 Up to X Registration** Haynes Manuals N. America, Incorporated  
Ant Anstead's *Building a Special* brings the Haynes story full circle, coming 61 years after the original *Building a 750 Special* was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series *Ant Anstead Master Mechanic*, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.

**Millennium Falcon Manual** Haynes Publishing UK

**Automotive Electrical Manual** Haynes Manuals N. America, Incorporated

"This book will provide a complete and easy-to-understand reference for the growing band of people wishing to keep their own chickens for both food and pleasure. Pitched at the novice but also containing plenty to interest the experienced chicken-keeper, the book will contain no-nonsense advice, tips, facts and step-by-step sequences, as well as plenty of relevant photographs and diagrams. As more people keep chickens nowadays than at any time since the Second World War, this book is a timely addition to the Haynes range."--Publisher description.
