Road handbook, of a drive safe! <i>Illinois 2021 Rules of the Road</i> Simon and Schuster Sets forth what to do and what not to do to keep people and property safe Based on the author's more than two decades of managing core facets of emergency planning and response, this book enables readers to minimize the possibility	chemical, biological, radiological , or nuclear (CBRN) disaster or a hazardous material (hazmat) incident at public events. Moreover, it sets forth the tools needed to quickly respond to an incident in order to avoid or minimize casualties and damages. With its comprehensive approach,	the book equips readers to plan for and manage a multi-disciplinary safety and emergency response team, including police, security, medical, military, and fire and civil protection personnel. CBRN and Hazmat Incidents at Major Public Events examines all aspects of security

planning and emergency response, including: General planning and preparedness procedures such as initial considerations, response network development, and training and exercise Planning and preparedness for security and emergency response providers, including medical, fire, police, military,	and VIP protection personnel Incident response, including initial response, detection and identification, and law enforcement Lastly, the author provides fourteen specific public event scenarios, explaining what to do and what not to do for effective emergency planning and response to	CBRN and hazmat incidents. These scenarios also set the foundation for preparedness training and exercises. Throughout the book, sidebars summarize the author's extensive operational and managerial experience, helping readers focus on the core tested and proven strategies and
