Netbooks: The Missing Manual Published Nov 25, 2003 by Addison-Wesley Professional. Part of the Tools and Techniques for Computer

Typesetting series. The series editor may be contacted at frank.mittelbach@l^atex-project.org. LaTeX is the text-preparation system of choice for scientists and academics, and is especially useful for typesetting technical materials. This popular book shows you how to begin using LaTeX to create high-quality documents. The book also serves as a handy reference for all LaTeX users. In this completely revised edition, the authors cover the LaTeX2 standard and offer more details, examples,

exercises, tips, and tricks. They go beyond the core installation to describe the key contributed packages that have become essential to LaTeX processing. Inside, you will find: Complete coverage of LaTeX fundamentals, including how to input text, symbols, and mathematics; how to produce lists and tables; how to include graphics and color; and how to organize and customize documents. Discussion of more advanced concepts such as bibliographical databases and

BIBTeX, math extensions with AMS-LaTeX, drawing, slides, and letters. Helpful appendices on installation, error messages, creating packages, using LaTeX with HTML and XML, and fonts. An extensive alphabetized listing of commands and their uses. New to this edition: More emphasis on LaTeX as a markup language that separates content and form--consistent with the essence of XML. Detailed discussions of contributed packages alongside relevant standard

topics. In-depth information on PDF output, including extensive coverage of how to use the hyperref package to create links, bookmarks, and active buttons. As did the three best-selling editions that preceded it, *Guide to LaTeX, Fourth Edition*, will prove indispensable to anyone wishing to gain the benefits of LaTeX. The accompanying CD-ROM is part of the TeX Live set distributed by TeX Users Groups, containing a full LaTeX installation for Windows, MacOSX, and Linux, as well as

many extensions,
including those
discussed in the
book. 0321173856B
