"Babies with CVI: Nurturing Visual Abilities and Development in Early Childhood is a guide through the history and best practices related to the treatment of CVI in children from birth to 36 months. This book is based on the author's nearly five-decade career working with families in homes and classrooms. Understanding and knowledge about effective interventions to address the visual skills of children with CVI evolved enormously over that period. Babies with CVI reflects that evolution. The book presents specific approaches and strategies that families and visual impairment professionals can use to meet the unique learning needs of a child with CVI. It stresses the importance of early intervention, proper evaluation, and integrating teaching opportunities into the child's daily routine"--
