Brandweek Chilton Book Company This text covers the basic facts and interpretation of microscopic anatomy. It emphasizes the relationship and concepts by which cell and tissue structure are inextricably linked with their function. Numerous photomicrographs and electron micrographs should amplify the text and remind the user of the laboratory basis of the study of histology. An atlas section containing 105 color plates is also included. Emphasis on diagrams, illustrations, and charts that summarize morphologic and functional features of cells, tissues, and organs, and inclusion of clinical correlations in each chapter to further illustrate the direct application of basic histological information to diagnosis, prognosis, pathobiology, and clinical aspects of disease, should appeal to students, who are anxious to see how the basic sciences taught in the first two years of medical school relate to the clinical aspects thereafter.

Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they

constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future. *Automotive Heating & Air Conditioning* Harper Collins Chilton's Isuzu Amigo/pick-ups/Rodeo/Trooper Chilton Book Company *Road & Track* Umbrage Editions Incorporated Popular Mechanics inspires, instructs and influences readers to help them master the modern world.
