For the first time ever, the habits behind Dubai's success... Every now and then a story comes along that absolutely captures your attention. Dubai is one of those for me, but not just me--millions around the world yearn to come to Dubai. This global supercity, which just five decades ago was a cholera-plagued backwater, might just be the picture of a dream becoming reality. But how, exactly, did this incredible transformation take place?

Leadership! But not your run-of-the-mill government leadership, nor typical corporate leadership, nor leadership taught in classrooms. This is Dubai-style leadership. Living and working in Dubai for the past decade, I've seen the leadership impact firsthand. As a leadership scholar and advisor to CEOs, I thought I was perfectly situated to discover the reasons behind Dubai's success. So, in 2008 I set out to discover

the city's "secret sauce." Then the Global Financial Crisis hit! Disaster! I pressed the pause button on my research, and, like everyone in the city, held my breath. Well, what happened next confirmed that there is indeed something unique and special here. I spent the next three years researching, interviewing more than two hundred leaders, and identifying the city's leadership secrets, eventually

whittling them down to twelve habits. My aim was to develop a replicable model that I could share with my readers--leaders in businesses, governments, and elsewhere. Anyone who is interested in leadership, and in particular achieving exceptional results, can benefit from understanding the twelve habits I outline here. To learn how to lead Dubai style, we need to walk the desert paths of the past to the superhighways of the future.

Leadership Dubai Style retraces the city's journey and draws out the leadership habits that emerged over time. For decades Dubai brought in--imported--leading minds from every field to learn from them. Now it's time for Dubai to teach us--to teach us how to lead!

The New Psychology of Leadership

"The philosopher, statesman, and moralist Plutarch of Chaeroneia (first and early second centuries CE) begins his essay Political Advice, wherein

he advises a man about how to embark upon a career in government and how to become an effective leader by saying: 'First of all, let the primary motivation for political activity be a conscious choice based on judgment and reason, which serves as a firm and strong foundation, and let the choice not be rashly inspired by the vain pursuit of glory, a sense of rivalry, or a lack of other meaningful activities.' In How to Lead, classicist Jeffrey Beneker translates three of Plutarch's political essays: To an Uneducated

Leader, Political Advice, and The Role of the Elder Statesman. In these essays Plutarch seeks not only to advise these budding, practicing, and even aging politicians about the problems of governing their Greek cities under Roman rule, but also to educate them about general principles of leadership. Plutarch thought quite a lot about political leadership. The management of public affairs at all levels is one of the most important of human endeavors. It requires education, character, and commitment. He	encourages those who desire to lead, and he gives advice based mainly on the experiences of great leaders of the past. These essays are timeless reflections on the proper way to lead and serve, publicly, at least with respect to the European and American political traditions. The essays emphasize the importance of personal integrity and friendships, how best to persuade one's fellow citizens, the dangers inherent in rivalry, and that the successful management of public affairs demands respect for the state's	institutions, cooperation among politicians, and the subordination of one's own glory to the welfare of the state"-- Elements of Libertarian Leadership Emlc Print How can you become a more successful manager, a stronger team leader and a motivator who gets the best results from a group? fashion, THE LEADERSHIP PILL conjures up a tantalizing possibility: What if there was a pill that could stimulate the natural powers of the mind and body to provide leadership? In the story, an amazing new pill heightens one leader's powers, but contains the wrong ingredients, stimulating him in a short-sighted direction. He is coercive, obsessed with immediate

results and drives his team relentlessly until, after a brief spike in performance, they suffer early burnout. In contrast, the 'Effective Leader', working without a pill, inspires and supports his team. He supplies the right ingredients, earning the respect and trust of his team with a blend of integrity, partnership and affirmation. Ultimately it is

recognised that there is more to effective leadership than a wonder 'pill'. Destined to be a transforming experience for thousands of readers, THE LEADERSHIP PILL shows how to apply the right techniques, no matter how pressured a business situation. A Textbook for Undergraduate Students  
Greenleaf Book Group  
Books about leadership abound, often generalizing from a heroic leader's own experiences or reflecting the latest incremental advances in scholarly theorizing. Rethinking Leadership is different in that Ladkin questions the key questions of leadership thinking and thus arrives at a radically different conception of leadership. It is a

---

welcome conception that recognizes the embodied, sensual, felt nature of leadership as an ongoing process involving leaders and followers within a particular context. For the complex and challenging times we live in, we need complex and challenging conceptions of leadership and Donna Ladkin has given us an excellent starting place. Steve Taylor, Worcester Polytechnic Institute, US Beautifully written, insightful and novel, this book departs nicely from mainstream views on leadership and

can be strongly recommended to anyone wanting a new look on the complexities, meanings and dynamics of leadership and workplace relations. Mats Alvesson, Lund University, Sweden Donna Ladkin's inspiring and informed book breaks new ground in leadership studies. Writing lucidly, warmly and accessibly, Ladkin makes philosophy to bear on some key themes of leadership. Picking up concepts from philosophy's all time greats, she enriches the existing leadership

discourse powerfully. Questions of charisma, vision, indeed the nature of leadership itself, are cast in fresh settings, and they become alive. Skilfully avoiding becoming overtly abstract, with a keen eye to examples, Donna Ladkin delivers a delightful, elevating and original contribution to the rethinking of leadership. Esa Saarinen, Helsinki University of Technology, Finland Adopting a post-positivist phenomenological perspective inspired by the writings of Husserl and Heidegger among others, Donna

---

Ladkin crafts a series of philosophical questions that prompt the reader to deconstruct and reposition many habitually held views of leaders and leadership. Through her deep questioning, Ladkin reminds us that wisdom the virtue of practical circumspection is central to the ethical and aesthetic moment of leading. Rethinking Leadership is a refreshing and much-needed re-evaluation of the field, which should be read by anyone with a serious interest in the subject. Peter Case, University of the West of

England, UK  
Writing anything new about leadership might seem like a difficult task these days. Writing anything new and interesting about leadership might seem beyond most of us. Writing anything new, interesting and provocative about leadership is restricted to only a few very talented scholars. Ladkin is one of these very talented scholars she has done all three in a groundbreaking review of the nature of leadership and the questions we should be asking about this phenomenon.

Keith Grint, University of Warwick, UK A must-read for serious leadership studies scholars, Rethinking Leadership offers a radical reconceptualisation of leadership as a contextually embedded, physically embodied phenomenon. The book arrives at original and surprising answers to perennial questions such as What is leadership? and How do leaders lead change? , by addressing them from a philosophical, rather than psychological or sociological standpoint.

---

Beautifully written, Ladkin makes complex ideas accessible by illustrating them with practical examples drawn from her wide experience as a leadership academic and management consultant across a range of commercial, political and not-for-profit organisations. A fresh voice amongst the crowded field of leadership studies, *Rethinking Leadership* delivers not just new answers, but an entirely new way of thinking about leadership and its role in contemporary

society. *The Psychology of Leadership* Edward Elgar Publishing Two leadership consultants identify three keys to being a more effective leader: knowing your strengths and investing in others' strengths, getting people with the right strengths on your team, and understanding and meeting the four basic needs of those who look to you for leadership.
