This fascinating account of an unusual research project challenges many assumptions about how young children learn and how best to teach them. In particular it turns upside-down the commonly held belief that professionals know better than parents how to educate and bring up children; and it throws doubt on the theory that working-class children underachieve at school because of a language deficit at home. The second edition of this bestselling text includes a new introduction by Judy Dunn. Fascinating account of an unusual research project challenges many assumptions about how young children. Turns upside-down the commonly held belief that professionals know better than parents how to educate and bring up children. Throws doubt on the theory that working-class children underachieve at school because of a language deficit at home. The authors' evidence is the children's own conversations which are quoted extensively and are delightful. The second edition of this bestselling text includes an introduction by Judy Dunn.

Goyal's ICSE English Language Specimen Question Paper with Model Test Papers For Class 10 Semester 2 Examination 2022 Prabhat Prakashan

The essays in this book criticise the new positivism in education policy, whereby education is systematically reduced to those things that can be measured by so-called 'objective' tests. School curricula have been narrowed with an emphasis on measurable results in the 3 R's and the 'quality' of university departments is now assessed by managerial exercises based on commercial audit practice. As a result, the traditional notion of liberal arts education has been replaced by utilitarian productivity indices.
