Writing as a means of teacher learning is the focus of this resource. It focuses on the value of reflective writing as a learning resource for teacher professional development and as a powerful tool in inquiry-based learning. The contributors in this book are language learners, teachers of English and other languages, teacher educators, and higher education teachers. Their writing includes dialoguing in online journals, group journals, and using autobiography, narrative, memoir, phenomenology, and self-study. Most of the contributors demonstrate the use of reflective writing as a class resource as well as a support for their own professional development. The chapters comprise case analyses of teacher learning. The contexts include formal teacher education, such as short courses and graduate programs. The chapters also document professional in-service communities, informal teacher groups, pairs of teachers reflecting together, and individual teachers writing to reflect on practice at particular points in their lives, or integrating it in their daily practice. Now, in this dazzling collection of nine entirely original essays, written with a rare combination of give and sharpness, wit and fearlessness, she delves into the forces that warp our vision, demonstrating an unparalleled stylistic potency and critical dexterity. Trick Mirror is an enlightening, unforgettable trip through the river of self-delusion that surges just beneath the surface of our lives. This is a book about the incentives that shape us, and about how hard it is to see ourselves clearly through a culture that revolves around the self. In each essay, Tolentino writes about a cultural prism: the rise of the nightmare social internet; the advent of scamming as the definitive millennial ethos; the literary heroine ’ s journey from brave to blank to bitter; the punitive dream of optimization, which insists that everything, including our bodies, should become more efficient and beautiful until we die. Gleaming with Tolentino ’ s sense of humor and capacity to elucidate the impossibly complex in an instant, and marked by her desire to treat the reader with profound honesty, Trick Mirror is an instant classic of the worst decade yet. Critical Thinking and Writing for Nursing Students Farrar, Straus and Giroux
"... a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called "zones," with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD."--Publisher's website.

Where the Wild Things Are Jossey-Bass
According to Raybeck, the solitary dictum that best characterizes fieldwork is Things go awry. In this spirited account of his time spent in Southeast Asia, Raybeck describes several adventures and misadventures involving field research, as well as the understanding, humility and bruises that these experiences leave behind. Since fieldwork is situated, Raybecks treatment also includes rich descriptions of Kelantanese society and culture, addressing such topics as kinship, linguistics, gender relations, economics, and political structures. Through the lively pages of this narrative, readers gain insight into the human dimension of the fieldwork undertaking, a sense of how the anthropologist builds rapport in a research setting, and how reliable information is obtained.

"Pinker has a lot of ideas and sometimes controversial opinions about writing and in this entertaining and instructive book he rethinks the usage guide for the 21st century. Don't blame the internet, he says, good writing has always been hard. It requires imagination, taking pleasure in reading, overcoming the difficult we all have in imaging what it's like to not know something we do know."--Publisher information.

Teaching Writers to Reflect MIT Press
In Writing Without Teachers, well-known advocate of innovative teaching methods Peter Elbow outlines a practical program for learning how to write. His approach is especially helpful to people who get "stuck" or blocked in their writing, and is equally useful for writing fiction, poetry, and essays, as well as reports, lectures, and memos. The core of Elbow's thinking is a challenge against traditional writing methods. Instead of editing and outlining material in the initial steps of the writing process, Elbow celebrates non-stop or free uncensored writing, without editorial checkpoints first, followed much later by the editorial process. This approach turns the focus towards encouraging ways of developing confidence and inspiration through free writing, multiple drafts, diaries, and notes. Elbow guides the reader through his metaphor of writing as "cooking:" his term for heating up the creative process where the subconscious bubbles up to the surface and the writing gets good. 1998 marks the twenty-fifth anniversary of Writing Without Teachers. In this edition, Elbow reexamines his program and the subsequent influence his techniques have had on writers, students, and teachers. This invaluable guide will benefit anyone, whether in the classroom, boardroom, or living room, who has ever had trouble writing.

#1 NEW YORK TIMES BESTSELLER • Bren é Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she ’ s showing us how to put those ideas into practice so we can step up and lead. Don ’ t miss the five-part HBO Max docuseries Bren é Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don ’ t pretend to have the right answers; we stay curious and ask the right questions. We don ’ t see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don ’ t avoid difficult conversations and situations; we lean into vulnerability when it ’ s necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we ’ re choosing not to invest in developing the hearts and minds of leaders at the exact same time as we ’ re scrambling to figure out what we have to offer that machines and AI can ’ t do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Bren é Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, “ One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It ’ s learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It ’ s why we ’ re here. ” Whether you ’ ve read Daring Greatly and Rising Strong or you ’ re new to Bren é Brown ’ s work, this book is for anyone who wants to step up and into brave leadership.

Year after year, Rafe Esquith ’ s fifth-grade students excel. They read passionately, far above their grade level; tackle algebra; and stage Shakespeare so professionally that they often wow the great Shakespearen actor himself, Sir Ian McKellen. Yet Esquith teaches at an L.A. innercity school known as the Jungle, where few of his students speak English at home, and many are from poor or troubled families. What ’ s his winning recipe? A diet of intensive learning mixed with a lot of kindness and fun. His kids attend class from 6:30 A.M. until well after 4:00 P.M., right through most of their vacations. They take field trips to Europe and Yosemite. They play rock and roll. Mediocrity has no place in their classroom. And the results follow them for life, as they go on to colleges such as Harvard, Princeton, and Stanford. Possessed by a fierce idealism, Esquith works even harder than his students. As an outspoken maverick of public education (his heroes include Huck Finn and Atticus Finch), he admits to significant mistakes and heated fights with administrators and colleagues. We all—teachers, parents, citizens—have much to learn from his candor and uncompromising vision.
