The Complete Web Assistant: Provide In-application Help and Training Using the SAP Enable Now EPSS Espresso Tutorials GmbH

With the conversion from SAP ERP to SAP S/4HANA, the concept of classic customers and vendors is a thing of the past. SAP Business Partner is now the leading object for processing master data information for customers and vendors. Transactions such as FD01/FK01, FD02/FK02 and XK01/XK02 are automatically redirected to the leading transaction BP. In this practical guide, learn step by step how to work with SAP Business Partner, including primary customization settings, and the creation of an SAP business partner with single and grouped roles. Specialized topics such as search help, field attributes, and authorizations are also covered. A comparison of greenfield and brownfield approaches is an essential aspect of this book. For readers who want, or need, to migrate their current data, guidance is provided on business partner conversion types. This guide pays special attention to master data synchronization via the CVI Cockpit, including the assignment of number ranges and intervals. - The SAP Business Partner concept - SAP Business Partner integration in SAP ERP and SAP S/4HANA - SAP Business Partner synchronization and Customer-Vendor Integration (CVI) - Overview of customization settings and master data maintenance

Practical Guide to SAP Transportation Management (TM) SAP PRESS This guide expertly introduces business users, SAP support staff, and SAP consultants to Bank Communication Management (BCM) in SAP S/4HANA and SAP ECC. Dive deep into BCM functionality and walk through end-to-end processes using BCM. Take a closer look at executing payment runs, batching payments, and approving and rejecting payments. Explore the technical aspects of using BCM, including alert implementation, automated payment reversals in the case of a rejected payment or batch, and the use of the BCM Connector to import and process a payment file generated from an external system. Understand how BCM is integrated with other payment-related modules in SAP. Look at configuration requirements and explore the available monitoring tools. Troubleshoot common implementation challenges and learn how to resolve them. Obtain an overview of SAP Multi-Bank Connectivity and how to use it to connect with banking partners, and learn about Advanced Payment Management. This book uses practical examples, tips, and screenshots to guide readers through BCM functionality and processes.- Explore BCM functionality in SAP S/4HANA and ECC, including process flows, reporting, and configuration - Dive into the technical aspects of using BCM - Learn about SAP Advanced Payment Management and SAP Multi-Bank Connectivity - Troubleshoot common implementation challenges
