Dare to Bloom Little, Brown
"A bold and subversive retelling of the goddess's story," this #1 New York Times bestseller is "both epic and intimate in its scope, recasting the most infamous female figure from the Odyssey as a hero in her own right" (Alexandra Alter, The New York Times). In the house of Helios, god of the sun and mightiest of the Titans, a daughter is born. But Circe is a strange child -- not powerful, like her father, nor viciously alluring like her mother. Turning to the world of mortals for companionship, she discovers that she does possess power -- the power of witchcraft, which can transform rivals into monsters and menace the gods themselves. Threatened, Zeus banishes her to a deserted island, where she hones her occult craft, tames wild beasts and crosses paths with many of the most famous figures in all of mythology, including the Minotaur, Daedalus and his doomed son Icarus, the murderous Medea, and, of course, wily Odysseus. But there is danger, too, for a woman who stands alone, and Circe unwittingly draws the wrath of both men and gods, ultimately finding herself pitted against one of the most terrifying and vengeful of the Olympians. To protect what she loves most, Circe must summon all her strength and choose, once and for all, whether she belongs with the gods she is born from, or the mortals she has come to love. With unforgettably vivid characters, mesmerizing language, and page-turning suspense, Circe is a triumph of storytelling, an intoxicating epic of family rivalry, palace intrigue, love and loss, as well as a celebration of indomitable female strength in a man's world. #1 New York Times Bestseller -- named one of the Best Books of the Year by NPR, the Washington Post, People, Time, Amazon, Entertainment Weekly, Bustle, Newsweek, the A.V. Club, Christian Science Monitor, Refinery 29, BuzzFeed, Paste, Audible, Kirkus, Publishers Weekly, Thrillist, NYPL, Self, Real Simple, Goodreads, Boston Globe, Electric Literature, BookPage, the Guardian, Book Riot, Seattle Times, and Business Insider.

Valley of Giants HarperCollins
New York City in June is no joke--and as a wave of violence engulfs the sweltering city, an even greater danger looms in this riveting thriller for fans of Iris Johansen and Tess Gerritsen. As the heat rises on a New York summer, a suicide bomb set off in a Times Square subway station nearly claims the life of 68-year-old ex-madam Kathleen. Then a woman is brutally murdered, her body dumped on a marshy beach in Queens. The woman, Sharon, was last seen by 26-year-old Emily--a Deputy Press Officer working at City Hall--getting into a car in front of the building where she and Kathleen both live in far upper Manhattan. Emily requests an autopsy report from the Chief of the NYPD, but she doesn't realize the gravity of using her position to gain information. Things turn deadly when a bomb is planted in her building, gutting it with a raging fireball. Kathleen, Emily, and Emily's two-year-old daughter, Skye, barely escape with their lives. Could Kathleen's criminal history be at the heart of the violence? If Emily can't help her, Kathleen could spend the rest of her life in prison. And when Emily discovers a shocking connection between herself and Kathleen, the stakes become impossibly high. By the time Emily realizes she's in grave danger, it may be too late. She's beyond the reach of the cops, of City Hall, of her family...and a killer is closing in fast.

Lunchtime Harper Collins
We desire to know our lives matter, and we live in a world that craves more, but what is more? We're bombarded with messages about what more looks like and how we can successfully live a life of being made for more. Perfection is a constant measure of success, and we manipulate plans so we feel like we are making an impact. In the end, we are empty and exhausted. Author Lauren Elizabeth Miller has lived this and felt this on a deep level. She's walked through the emptiness and exhaustion that stems from trying to be perfect and never fail. She's also felt the redemption and restoration that only God can provide. In *Made for More*, Miller shares her life story and the freedom and redemption she found through complete surrender to God's plan for her life. She tells how obedience matters more than any outcome and that being made for more is simply living a life that stems from God's grace. When we understand this, it changes everything.

How Could She WestBow Press

A darkly witty mystery set at a New England prep school: "Part Dead Poets Society. Part Heathers. Entirely addictive" (Glamour). "Do you know what it took for Socrates' enemies to make him stop pursuing the truth?" "Hemlock." The fiercely competitive Mariana Academy was founded with a serious honor code; its reputation has been unsullied for decades. But now, a long-dormant secret society called Prisom's Party seems to have reemerged, threatening the school's placid halls with vigilante justice, exposing students and teachers alike for even the most minor infraction. Iris Dupont, a budding journalist whose only confidant is the chain-smoking specter of Edward R. Murrow, feels sure she can break into the ranks of the Devil's Advocate, the Party's underground newspaper, and there uncover the source of its blackmail schemes and vilifying rumors. Some involve the school's new science teacher, who also seems to be investigating the Party. Others point to an albino student who left school abruptly ten years before, never to return. And everything connects to a rare book called Marvelous Species. But the truth comes with its own dangers, and Iris is torn between her allegiances, her reporter's instinct, and her own troubled past, in this "darkly comic romp" filled with double-crosses and deeply buried secrets (The Washington Post).

99 Things Women Wish They Knew Before... **Stressing Out** Simon and Schuster

A Best Book of 2020: The Washington Post * NPR * Chicago Tribune * Smithsonian A "remarkable" (Los Angeles Times), "seductive" (The Wall Street Journal) debut from the new cohost of Radiolab, Why Fish Don't Exist is a dark and astonishing tale of love, chaos, scientific obsession, and—possibly—even murder.? "At one point, Miller dives into the ocean into a school of fish...comes up for air, and realizes she's in love. That's how I felt: Her book took me to strange depths I never imagined, and I was smitten." —The New York Times Book Review David Starr Jordan was a taxonomist, a man possessed with bringing order to the natural world. In time, he would be credited with discovering

nearly a fifth of the fish known to humans in his day. But the more of the hidden blueprint of life he uncovered, the harder the universe seemed to try to thwart him. His specimen collections were demolished by lightning, by fire, and eventually by the 1906 San Francisco earthquake—which sent more than a thousand discoveries, housed in fragile glass jars, plummeting to the floor. In an instant, his life’s work was shattered. Many might have given up, given in to despair. But Jordan? He surveyed the wreckage at his feet, found the first fish that he recognized, and confidently began to rebuild his collection. And this time, he introduced one clever innovation that he believed would at last protect his work against the chaos of the world. When NPR reporter Lulu Miller first heard this anecdote in passing, she took Jordan for a fool—a cautionary tale in hubris, or denial. But as her own life slowly unraveled, she began to wonder about him. Perhaps instead he was a model for how to go on when all seemed lost. What she would unearth about his life would transform her understanding of history, morality, and the world beneath her feet. Part biography, part memoir, part scientific adventure, *Why Fish Don’t Exist* is a wondrous fable about how to persevere in a world where chaos will always prevail.
