The Greenwood District had its own school system, libraries, churches, restaurants, post office, movie theaters, and more. But all that would change in the course of two terrible, unspeakable days. On May 31 and June 1, 1921, a mob of armed white Tulsans attacked Greenwood. They looted homes and businesses and burned them to the ground as Black families fled. The police did nothing to protect Greenwood, and as many as three hundred African Americans were killed. More than eight thousand were left homeless. News of the Tulsa Race Massacre—one of the worst incidents of racial violence in US history—was largely suppressed, and no official investigation occurred for seventy-five years. One of jazz's leading critics gives us an invigorating, richly detailed portrait of the artists and events that have shaped the music of our time. Grounded in authority and brimming with style, *Playing Changes* is the first book to take the measure of this exhilarating moment: it is a compelling argument for the resiliency of the art form and a rejoinder to any claims about its calcification or demise. “Playing changes,” in jazz parlance, has long referred to an improviser's resourceful path through a chord progression. *Playing Changes* boldly expands on the idea, highlighting a host of significant changes—ideological, technological, theoretical, and practical—that jazz musicians have learned to navigate since the turn of the century. Nate Chinen, who has chronicled this evolution firsthand throughout his journalistic career, vividly sets the backdrop, charting the origins of jazz historicism and the rise of an institutional framework for the music. He traces the influence of commercialized jazz education and reflects on the implications of a globalized jazz ecology. He unpacks the synergies between jazz and postmillennial hip-hop and R&B, illuminating an emergent rhythm

signature for the music. And he shows how a new generation of shape-shifting elders, including Wayne Shorter and Henry Threadgill, have moved the aesthetic center of the music. Woven throughout the book is a vibrant cast of characters—from the saxophonists Steve Coleman and Kamasi Washington to the pianists Jason Moran and Vijay Iyer to the bassist and singer Esperanza Spalding—who have exerted an important influence on the scene. This is an adaptive new music for a complex new reality, and *Playing Changes* is the definitive guide.

“Under The Trestle” is the true story of the most compelling murder case in Virginia history. In 1980, beautiful Gina Renee Hall, a Radford University freshman, went to a Virginia Tech nightclub on a Saturday night. She was never seen again. Her abandoned car was found parked beneath a railroad trestle bridging the New River, with blood in the trunk. The investigation led police to a secluded cabin on Claytor Lake, where there was evidence of a violent attack. Former Virginia Tech football player Stephen Epperly was charged with murder, despite the fact that Gina's body was never found. In Virginia's “trial of the century,” prosecutor Everett Shockley presented an entirely circumstantial case. Key witnesses against Epperly included his best friend, his mother and a tracking dog handler later believed by many to be a fraud. Three former Virginia Tech football players testified, including a Hokies quarterback once featured on the cover of *Sports Illustrated*. Would Epperly become the first person in Virginia history convicted of murder without the victim's body, an eyewitness or a confession? And would authorities ever find the body of Gina Renee Hall?

On average, at least one woman is murdered by a current or former partner every week in Australia. Far too many Australian women have experienced physical or sexual violence. Only rarely do these women capture the attention of the media and the public. What can we do to stem the tide of violence and tragedy? Finally, we are starting to talk about this epidemic of gendered violence, but too often we are doing so in a way that can be clumsy and harmful. Victim blaming, passive voice and over-identification with abusers continue to be hallmarks of reporting on this issue. And, with newsrooms drastically cutting staff and resources, and new business models driven by rapid churn and the 24 hour news cycle journalists and editors often don't have the time or resources bring new ways of thinking into their newsrooms. Fixed It demonstrates the myths that we're unconsciously sold about violence against women, and undercuts them in a clear and compelling way. This is a bold, powerful look at the stories we are told – and the stories we tell ourselves – about gender and power, and a call to action for all of us to think harder and do better.

Aller captures the infinitely shifting colors and textures of water, sand and sky This new project by German-born

photographer Renate Aller is an extension of the ongoing series and book *Oceanscapes* (2010). Aller has continued to make images of the ocean from a single vantage point—for which she is internationally known—but for the last several years, she has also photographed sand dunes in New Mexico and Colorado. She has now paired the resulting images in a fascinating new series that continues her investigation into the relationship between romanticism, memory and landscape in the context of our current sociopolitical awareness. There is both a visual and visceral relationship between the two bodies of work. The desert images also capture visitors to the dunes, who engage in beach activities far away from any large body of water. And while these parallel realities are from completely different locations, the simultaneous, multiple activities on the sloping sand hills appears as if layers of different people and activities were choreographed next to rolling waves of the sea. Aller's first combination of these images was in book form, for a mammoth handmade book that was 36 inches wide. The overwhelming success of that publication has inspired this new trade edition, which features the largest binding that can be mechanically bound, and includes an expanded selection of the work. Born in Germany, Renate Aller lives and works in New York. *Ocean and Desert* is her third monograph published with Radius Books, following *Dicotyledon* and the long-term project *Oceanscapes—One View—Ten Years*. Pieces from that series and other site-specific artworks are in the collections of corporate institutions, private collectors and museums, including the Lannan Foundation, Santa Fe; the Corcoran Gallery of Art, Washington, D.C.; Yale University Art Gallery, Connecticut; the George Eastman House, Rochester; New Britain Museum of American Art; Hamburger Kunsthalle; and the Chazen Museum of Art, Madison.

Author, activist, and TED speaker Ashton Applewhite has written a rousing manifesto calling for an end to discrimination and prejudice on the basis of age. In our youth obsessed culture, we're bombarded by media images and messages about the despairs and declines of our later years. Beauty and

pharmaceutical companies work overtime to convince people to purchase products that will retain their youthful appearance and vitality. Wrinkles are embarrassing. Gray hair should be colored and bald heads covered with implants. Older minds and bodies are too frail to keep up with the pace of the modern working world and olders should just step aside for the new generation. Ashton Applewhite once held these beliefs too until she realized where this prejudice comes from and the damage it does. Lively, funny, and deeply researched, *This Chair Rocks* traces her journey from apprehensive boomer to pro-aging radical, and in the process debunks myth after myth about late life. Explaining the roots of ageism in history and how it divides and debases, Applewhite examines how ageist stereotypes cripple the way our brains and bodies function, looks at ageism in the workplace and the bedroom, exposes the cost of the all-American myth of independence, critiques the portrayal of elders as burdens to society, describes what an all-age-friendly world would look like, and offers a rousing call to action. It's time to create a world of age equality by making discrimination on the basis of age as unacceptable as any other kind of bias. Whether you're older or hoping to get there, this book will shake you by the shoulders, cheer you up, make you mad, and change the way you see the rest of your life. Age pride! “Wow. This book totally rocks. It arrived on a day when I was in deep confusion and sadness about my age. Everything about it, from my invisibility to my neck. Within four or five wise, passionate pages, I had found insight, illumination, and inspiration. I never use the word empower, but this book has empowered me.” —Anne Lamott, New York Times bestselling author
