The Second American Civil War: Book One the Red and the Blue Oxford University Press

"In the spring of 2031 terrorists detonate nuclear bombs in nine American and European cities. They are not the small "suitcase" bombs intelligence agencies had anticipated, but large strategic weapons, smuggled to their targets on trucks and aboard ships. Millions die in the firestorms. In the months that follow, thousands more are lost to radiation sickness, starvation and the lawless gangs terrorizing the countryside. The global financial system collapses.

The military labors to establish order but is forced to commit nearly all its resources to the cities, which have become massive refugee camps. In the rural outland there is anarchy. The Chinese offer aid, but demand an impossible concession: the dissolution of the United States and creation of a new Sino-American continental state. They are refused. Can the U.S. hope to rebuild without aid? Its wounds are deep, the damage severe. The struggle continues, the days grind on, but the leaders know they are making almost no progress. In July they receive news so terrible that at first they cannot believe it. In five locations at once, Chinese troops are landing on American beaches. For the first time in over 200 years the United States is being invaded by a foreign power!"--Amazon blurb.

Fear Not - Overcome your fear As human beings, all of us are blessed with a wide range of sophisticated emotions. These emotions can range from happiness to sadness, from pleasure to pain, and from courage to fear. Taken in isolation, none of these emotions is inherently good or bad. These emotions can be accurately defined only when the context of the situation they occur in is taken into account. Because of this, emotions that are commonly perceived as negative can

actually be helpful in the right circumstances. For example, anger is often looked upon as something that is undesirable. But, if a person were being physically attacked by another person or an animal, the fight or flight affect can actually allow this individual to act more effectively. Fear works in the same way. When it occurs under the right circumstances, I can provide the edge an individual needs to survive in challenging situations. That said inappropriate feelings of fear can actually have a crippling effect on not only the body, but the mind as well. This book will take a closer look at this subject, and it will explore some of the different ways in which fear can actually cripple a person.

Press Confederate Winter is historical fiction based on a true family story backed up by an affidavit in the Confederate archives in Montgomery, Alabama. The author's great, great, great grandfather, William Sweeney, fought as a Confederate soldier at the tender age of 14. His father, John, had been drafted the year before into the Union Army. Confederate Winter is their story. By 1864 the Confederacy is on the verge of defeat. Atlanta has fallen and Confederate General John Bell Hood's army is in retreat. Hood formulates a bold plan to re-capture Nashville, the great base for the Union army in the West. A victory could change the course of the war. Hood needs manpower, however, and sends his conscription parties out to scour the countryside. Confederate Winter tells the story of a true-life family caught up in this grand adventure. The Federals conscript John Sweeney, the father, in late 1863 as General Sherman prepares his march on Atlanta and the sea. His son William is left in charge of the family farm, until one early fall morning... *Freedom from Fear* Harvard University Press For Katherine and her three American children, Greece was meant to be a one-year refuge from the late 1930's Depression. Her husband's family-owned orchard should have provided for their well-being, but instead embroiled them in legal debate.

WWII Axis bombings of Kalamata will shake the entire world and prompted the young family to flee to the remote mountain village of Katherine's birth, but Nazi invasion-and seemingly endless occupation of their village and their house-trapped them there until the war's end. Told through the eyes of John, Katherine's youngest child, he shares a universal story of fear and frustration faced by all innocent civilians during war in occupied countries. American Kid is a moving recollection of Katherine's courage, their family's sparse village existence on Mt. Parnon, and years of fear-filled interactions with Nazi soldiers.

This book is DEDICATED TO: The eradication of FEAR in America-as FDR articulated: "nameless, unreasoning, unjustified terror which paralyzes needed efforts to convert retreat into advance." In short, fear is the mother of all cancers on the body politic of America.....i.e., fear is a wall to keep the Mexicans out, and drives our insidious racism.....and the pernicious fear resulting from McCarthyism still hangs like a black cloud over and cripples America to this day, resulting in our Third World healthcare system, and Job Creation--and is the parent of the pervasive hate in America today.....to illustrate: I didn't write the following. It is a cut and paste from FACEBOOK, or some blog [would like to give credit if knew the author]--but it is so on target regarding how "fear" is driving Conservative policy in America today-i.e., is undermining America and

our progress-and relegating America to a Third World country status, rather than a world leader-"Conservatives are such cowards: they are afraid of gay people getting married or serving in the military; they are afraid of bringing terrorists to super max prisons in the US from which no one has ever escaped; they are afraid of the boy scouts letting gay kids in; they are afraid of everyone voting and are constantly suppressing the vote under some bogus voter fraud theory; they are afraid of letting students vote at their universities; they are afraid of women having the right to choose; they even are afraid of women getting contraception [the real issue actually is a women's agency and control over their bodies]; they are afraid of immigration reform leading to citizenship because they are afraid of-- name whatever reason; they are afraid of mandating gun purchasers to undergo background checks for crazy people and terrorists; they are afraid of people smoking pot; they are afraid of climate change being real and contradicting their beloved Bible; they are afraid of legitimate campaign reform; they are afraid of Muslims; they are afraid of

blacks; they are afraid of
atheists; they are afraid of
hippies; they are afraid of
socialists; they are probably
still afraid of monsters under
their beds; they are just rank
cowards and keep making
things up to be afraid of."

Moral Authority Blurb

James Abram Garfield
(November 19, 1831 - September
19, 1881) was the 20th president
of the United States, serving from
March 4, 1881 until his death by
assassination six and a half
months later. He was the first
sitting member of Congress to be
elected to the presidency, and
remains the only sitting House
member to gain the White
House.[1] Garfield entered
politics as a Republican in 1857.
He served as a member of the
Ohio State Senate from 1859 to
1861. Garfield opposed
Confederate secession, served as
a major general in the Union
Army during the American Civil
War, and fought in the battles of
Middle Creek, Shiloh, and
Chickamauga. He was first
elected to Congress in 1862 to

represent Ohio's 19th District.
Throughout Garfield's extended
congressional service after the
Civil War, he firmly supported the
gold standard and gained a
reputation as a skilled orator.
Garfield initially agreed with
Radical Republican views
regarding Reconstruction, but
later favored a moderate approach
for civil rights enforcement for
freedmen.

Over Here Oxford History of the United S

This is a memoir presented in an anthological - like format; in other words, a collection of short stories, on the life of the author. It starts when he was growing up in the Philippine countryside of Ilocos Sur province. Just like a normal kid, he played with his friends, did crazy things, went to school and moved to Manila, for his college education. He got married while in fifth year college, but still graduated on time.

This book relates his struggles, failures, as well as successes, including his coming to America.

Searching for the American Dream was no picnic either, but with perseverance, he achieved some of them in modest ways. Foreigners planning to immigrate to the great ol' USA could get glimpses, on what it takes, to come and live in America.

A Savage Journey to the Heart of the American Dream Good Press

With ancestral surnames that date to the first millennium A.D. in England and the Colonial era in the U.S.A., these Eads and Tipton families have been emigrating from the earliest times. Their tales of travel include a heroic knight in a Welsh forest, a kidnapped boy sold into servitude who became a plantation owner in Jamaica, farmers who emigrated from Maryland and North Carolina west to Ohio and Tennessee, and homesteaders in Illinois and Missouri with land grants from the government.

Other interesting stories include a link to the Jesse James Gang and a U.S. President, and war veterans from the Civil War to WWII. Biographies of fifteen turn-of-the-century babies (born around 1900) and four Tipton siblings (born in the early 20th century just before the Great Depression) complete this saga of American life as it unfolded over the centuries. Photographs, maps, documents, and a Proper Name Index will aid the genealogical researcher in finding their own roots. Also included are Ancestors and Descendants charts with numerous surnames, including: Allen, Atnip, Barker, Barrett, Bennett, Bishop, Campbell, Canning, Chiles,

Coffel, Collins, Croney, Dees, Eads, Gentry, Hache, Harden, Heath, Johnson, Jones, Leach, London, Long, Machen, Masters, Meador, Miller, Montgomery, Neece, Rainwater, Smith, Sutton, Tipton, Vannoy, Ward, White, Wright, and many others.

Life, liberty, and the pursuit of happiness are prescribed ideals in America of 2050. The Moral Authority, the nation's newest branch of government, has virtually eliminated crime, poverty, and most social ills, but it also rules the land with a tyrannical fist, championing ignorance and brandishing fear. Mark Bryan is a gay man whose existence brands him an outlaw; Isaac Montoya is a charming stranger, who entices Mark to defy moral law; and Samuel Pleasant runs the Moral Authority and plans to punish moral offenders and a rebellious uprising-no matter the cost. Will liberty and justice return for all?
