A world-renowned authority on the history, uses, and power of dreaming, Robert Moss guides neophyte and experienced adventurers alike to open their own dreamgates. Through these gates await otherwise inaccessible realms of reality as well as soul remembering — the “recovering of knowledge that belonged to us before we came into this life experience.” Exercises, meditations, and the mesmerizing tales of fellow dream travelers outline Moss’s Active Dreaming technique, a kind of shamanic soul-

flight that offers “frequent flyers” a passport between worlds. In this world beyond physical reality, Moss points to wellsprings of healing, creativity, and insight. As readers move into these different ways of seeing and knowing, they may also communicate with spiritual guides and departed loved ones in ways that transform their everyday lives.

“Like the druidic life force Jack taps, this hearty adventure, as personal as it is epic, will cradle readers in the ‘hollow of its hand’ (Booklist, starred review). Jack has caused an

earthquake. He was trying to save his sister Lucy from being thrown down a well, but sometimes the magic doesn't quite work out. Not only does Jack demolish a monastery, but Lucy is carried off by the Lady of the Lake, and Jack has to follow her through the Hollow Road, which lies underground. Aided by Pega, a slave, and the berserker Thorgil, Jack encounters hobgoblins, kelpies, yarthkins, and elves—not the enchanted sprites one would expect, but fallen angels who steal human children for pets. In the eighth century, the world is caught between belief in the Old Gods and Christianity, and what Jack and his companions do will decide the fate of both religions. From National Book Award winner Nancy Farmer, this second book in the Sea of Trolls

trilogy brilliantly enlarges the world of the first story. Look for the conclusion in *The Islands of the Blessed*. Comes a Horseman Simon and Schuster If you breathe . . . It will find you. The list of 10,000 names was created for maximum devastation. Business leaders, housewives, politicians, celebrities, janitors, children. None of them is aware of what is about to happen—but all will be part of the most frightening brand of warfare the world has ever known. The germ—an advanced form of the Ebola virus—has been genetically engineered to infect only those people whose DNA matches the codes embedded within it. Those whose DNA is not a match simply catch a cold. But those who are a match experience a far worse fate. Within days, their internal organs liquify. Death is the only escape. The release of the virus will usher in a new era of power where countries are left without defense. Where a single person—or millions—could be killed with perfect accuracy and zero collateral damage. Where your own DNA works against you. The time isn't coming. It is now. Pray the assassins get you first.

Flesh-eating danger abounds in the chilling sequel to *The Monstrumologist* that is “as fast-paced, elegant, and yes, gruesome as its predecessor” (Publishers Weekly, starred review). While Dr. Warthrop is attempting to disprove that *Homo vampiris*, the vampire, could exist, his former fiancée asks him to save her husband, who has been captured by a Wendigo—a creature that starves even as it gorges itself on human flesh. Although Dr. Warthrop considers the Wendigo to be fictitious, he relents and performs the rescue—but is he right to doubt the Wendigo’s existence? Can the doctor and Will Henry hunt down the ultimate predator, who, like the legendary vampire, is neither living nor dead, and whose hunger for human flesh is never satisfied? This second book in *The Monstrumologist* series explores the line between myth and reality, love and hate, genius and madness.

Architecture and Modern Literature explores the representation and interpretation of architectural space in modern literature from the early nineteenth century to the present, with the aim of showing how literary production and architectural construction are related as cultural forms in the historical context of modernity. In addressing this subject, it also examines the larger questions of the relation between literature and architecture and the extent to which these two arts define one another in the social and philosophical contexts of modernity. *Architecture and Modern Literature* will serve as a foundational introduction to the emerging interdisciplinary study of architecture and literature. David Spurr addresses a broad range of material, including literary, critical, and philosophical works in English, French, and German, and proposes a new historical and theoretical overview of this area, in which modern forms of “meaning” in architecture and literature are related to the discourses of being, dwelling, and homelessness.

When a group of immortal vigilantes threatens millions, only one man is brave enough to stand in their way. Their story didn't start this year...or even this millennium. It began when Moses was on Mt. Sinai. Tired of waiting on the One True God, the twelve tribes of Israel began worshipping a golden calf through pagan revelry. Many received immediate death for their idolatry, but 40 were handed a far worse punishment—endless life on earth with no chance to see the face of God. This group of immortals became the 13th Tribe, and they've been trying to earn their way into heaven ever

since—by killing sinners. Though their logic is twisted, their brilliance is undeniable. Their wrath is unstoppable. And the technology they possess is beyond anything mere humans have ever seen. Jagger Baird knows nothing about the Tribe when he's hired as head of security for an archaeological dig on Mt. Sinai. The former Army Ranger is still reeling from an accident that claimed the life of his best friend, his arm, and his faith in God. The Tribe is poised to execute their most ambitious attack ever and the lives of millions hang in the balance. When Jagger's wife and son are caught in the crossfire, he'll stop at nothing to save them. But how can one man stand against an entire tribe of immortals? The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung ’ s revolutionary ideas “ What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society.” —The Guardian “ Our psyche is part of nature, and its enigma is limitless.” Since our inception, humanity has looked to dreams for guidance. But

what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life ' s work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.
