**Handbook of Buying Issue**

For Cheryl Mendelson, laundrying is the best part of housekeeping. It's full of physical pleasures—the look of favorite clothes restored to freshness and beauty, the tactile satisfaction of crisp linens in beautifully folded stacks. Good laundrying preserves things you love and protects your pocketbook. It doesn't take much time or effort. What it takes is knowledge, and Laundry is the comprehensive, entertaining, and inspiring book on the art of

bestselling Home Comforts, with revised and updated information and a new introduction, Laundry is an indispensable guide to caring for all the cloth in one's home: from kitchen rags to bedding, hand-washables, and baby clothes to vintage linens. Mendelson offers detailed guidance on when to disregard labels, removing stains, making environmentally informed choices, sewing, and storing clothing and fabrics. A much-needed antidote to the standard-issue how-to manual, Laundry celebrates the satisfactions of ironing, folding, and caring for clothes and linens. Both pragmatic and eloquent, Mendelson provides beginning

---

and veteran homemakers with a seamless combination of reliable instruction, time-tested advice, and fascinating personal narrative. As a farm girl in Pennsylvania, Mendelson—who is a philosopher, lawyer, and professor, as well as a homemaker, wife, and mother—received a classic domestic education from her grandmothers, aunts, and mother. Laundry combines the best of the traditional lore they taught her with the latest in technical and scientific information. Writing with infectious love and respect for her subject, Mendelson is sure to instill in readers a newfound affection and appreciation for the art of laundering.

**Whirlpool Washer Repair**  
Anodic Oxidation of Aluminium and Its Alloys focuses on the basic principles of anodic oxidation, choice of materials, pretreatment, design, properties of the anodic film, testing, and maintenance. Organized into 16 chapters, this book begins with the principles of anodizing; applications of anodized aluminum; factors influencing the choice of grade of aluminum for anodizing; and factors influencing the choice of anodizing process. Subsequent chapters explain designing for anodizing; anodizing equipment; jigging (racking) methods for anodizing; chemical treatment processes before anodizing; and the anodizing process. The coloring, sealing, and stripping of the anodic coating; testing anodized aluminum; properties of anodized aluminum; maintenance of anodized aluminum; and effluent treatment for anodizing plants are also described. This text will be useful to students, technicians, product designers, architects, and engineers in the aluminum industry.
