For Cheryl Mendelson, laundering is the best part of housekeeping. It ' s full of physical pleasures—the look of favorite clothes restored to freshness and beauty, the tactile satisfaction of crisp linens in beautifully folded stacks. Good laundering preserves things you love and protects your pocketbook. It doesn ' t take much time or effort. What it takes is knowledge, and *Laundry* is the comprehensive, entertaining, and inspiring book on the art of laundering. Culled from the bestselling *Home Comforts*, with revised and updated information and a new introduction, *Laundry* is

an indispensable guide to caring for all the cloth in one ' s home: from kitchen rags to bedding, hand-washables, and baby clothes to vintage linens. Mendelson offers detailed guidance on when to disregard labels, removing stains, making environmentally informed choices, sewing, and storing clothing and fabrics. A much-needed antidote to the standard-issue how-to manual, *Laundry* celebrates the satisfactions of ironing, folding, and caring for clothes and linens. Both pragmatic and eloquent, Mendelson provides beginning and veteran homemakers with a seamless combination of reliable instruction, time-tested advice, and fascinating personal narrative. As a farm girl in Pennsylvania, Mendelson—who is a philosopher, lawyer, and professor, as well as a homemaker, wife, and mother—received a classic domestic education from her grandmothers, aunts, and

mother. Laundry combines the best of the traditional lore they taught her with the latest in technical and scientific information. Writing with infectious love and respect for her subject, Mendelson is sure to instill in readers a newfound affection and appreciation for the art of laundering.

Now featuring never-before-seen material, the “brilliantly realized” (The New York Times Book Review)

breakthrough novel from visionary author Neal Stephenson, a modern classic that predicted the metaverse and inspired generations of Silicon Valley innovators Hiro lives in a Los Angeles where franchises line the freeway as far as the eye can see. The only relief from the sea of logos is

within the autonomous city-states, where law-abiding citizens don't dare leave their mansions. Hiro delivers pizza to the mansions for a living, defending his pies from marauders when necessary with a matched set of samurai swords. His home is a shared 20 X 30 U-Stor-It. He spends most of his time goggled in to the Metaverse, where his avatar is legendary. But in the club known as The Black Sun, his fellow hackers are being felled by a weird new drug called Snow Crash that reduces them to nothing more than a jittering cloud of bad digital karma (and IRL, a vegetative state).

Investigating the Infocalypse leads Hiro all the way back to the beginning of language itself, with roots in an ancient Sumerian priesthood. He'll be joined by Y.T., a fearless teenaged skateboard courier. Together, they must race to stop a shadowy virtual villain hell-bent on world domination.

A New York Times, USA Today, and Wall Street Journal bestseller In this iconic bestseller, popular business blogger and bestselling author Seth Godin proves that winners are really just the best quitters. Godin shows that winners quit fast, quit often, and quit without guilt—until they commit to beating the right Dip. Every new project (or job, or hobby, or company) starts out fun...then gets really hard, and not much fun at all. You might be in a Dip—a temporary setback that will get better if you keep pushing. But maybe it ' s really a Cul-de-Sac—a total dead end. What really sets superstars apart is the ability to tell the two apart. Winners seek out the Dip. They realize that the bigger the barrier, the bigger the reward for getting

past it. If you can beat the Dip to be the best, you ' ll earn profits, glory, and long-term security. Whether you ' re an intern or a CEO, this fun little book will help you figure out if you ' re in a Dip that ' s worthy of your time, effort, and talents. The old saying is wrong—winners do quit, and quitters do win.
