Turn Your Fandom Into Cash Good Press

More than 7 million viewers are captivated weekly by Fringe, a science fiction procedural in the best tradition of The X-Files with a taut central mythology, rich characters, and it's own laboratory cow. In its weekly cases and its overarching plot, Fringe strikes a compelling balance between the strange and the familiar, and the quirky and the tragic. Fringe Science delves into the science, science fiction, and pseudoscience of Fringe with a collection of essays by science and science fiction writers on everything from alternate universes to time travel to genetically targeted toxins, as well as discussions on the show's moral philosophy and the consequences of playing God.

Dirk Gently's Holistic Detective Agency All Points Books

This geeky guide (by an avowed geek) shows you the ins-and-outs of making money involved in the worlds you love to immerse yourself in or one you want to create. Turn Your Fandom Into Cash teaches fans how to power up their own geeky businesses, harness the power of their fandom, and shield themselves against the wrath of intellectual property holders. This book will also offer real-world examples for aspiring Tony Starks and Bruce Waynes. In many cases, these passion-pursuits have led to full-time careers; in one case, it created a \$100 million business. This book is filled with advice from geeky creators, all of whom have earned money following their passions. Some of these creators work independently, others take gigs when they're not at their day jobs, and some have created businesses that have earned millions. In Turn Your Fandom Into Cash, you will learn: How many opportunities there are to find work doing something you love. What kind of education and financial outlay is required to start your particular geek business. How to acquire a license from a major media publisher. What kind of work you can legally create, even without a license. Advice on why you should--and should not--go into business for yourself. Practical tips on getting your products and services noticed by fans. Truly, there has never been a better time to have a geek business. Now grab your lightsaber or your Lucille and take a slice out of the fandom you love dearly.

Very Good Lives Red Wheel/Weiser

See how the story of Jamie Frasier and Claire Beauchamp Randall comes to life on the screen with this official, photo-filled companion to the third and fourth seasons of the hit Starz television series based on Diana Gabaldon's bestselling Outlander novels. From its very first episode, the Outlander TV series transported its viewers back in time, taking us inside the world of Diana Gabaldon's beloved series. From the Scottish Highlands, to the courts of Versailles, to the shores of America, Jamie and Claire's epic adventure is captured in gorgeous detail. Now, travel even deeper into the world of Outlander with this must-have insider guide from New York Times bestselling author and television critic Tara Bennett. Picking up where The Making of Outlander: Seasons One & Two left off, this lavishly illustrated collectors' item covers seasons three and four, bringing readers behind the scenes and straight onto the set of the show. You'll find exclusive interviews with cast members, including

detailed conversations with Caitriona Balfe and Sam Heughan (on-screen couple and real-life friends), as well as the writers, producers, musicians, costume designers, set decorators, technicians, and more whose hard work and cinematic magic brings the world of Outlander to life on the screen. Every page features gorgeous photographs of the cast, costumes, and set design, including both official cast photography and never-before-seen candid photos from on set. The Making of Outlander: Seasons Three & Four is the perfect gift for the Sassenach in your life—and the only way to survive a Droughtlander!

The New Right Penguin

The Kayla: A Modern-Day Princess series of #OWNVOICE books is for Dreamers and the Doers of all ages. This diverse picture book series is a heartwarming look at the importance of family, speaking our truth, dreaming freely, and knowing our worth. Book 2 is part of a five-part series that shines the spotlight on a little Black girl who never lets anything get in the way of her dreams. Parents, Caregivers, and Educators: By investing in this series, you help every child see that Black and Brown girls can be leaders, princesses, and the stars of their own stories. Children need to read stories that include characters who look like them. Offering these types of books to young readers is an essential part of building self-esteem, cultivating empathy, encouraging tough conversations, and letting children of color know they matter.

Fringe Food & Agriculture Org.

"Robert Coover, one of the true revolutionaries in American fiction, presents a new collection of short stories, revealing the cruelty of puppets, the perfection of a jigsaw puzzle, and the loneliness of the invisible man. Outlandish and precise, menacing and humane, this collection finds new life in our oldest tales."--BOOK JACKET.

You Should Have Known -- Free Preview (The First 4 Chapters) McFarland

Into the Looking Glass, an analytical guide for Fringe viewers and science fiction fans in general, explores the influence of these traditions on Fringe. It also reveals how the show reflects - and sometimes critiques - the society from which it emerges. Along with many other post-9/11 television shows, Fringe has demonstrated the West's collective paranoia about foreign invaders and domestic corruption. It also lays bare the spread of radical advances in technology and urges its viewers to ponder the ethical limitations of science.

The Making of Outlander: The Series Bloomsbury Publishing

More than 20 years after it was first broadcast, The X-Files still holds the public imagination. Over nine seasons and two feature films, agents Mulder and Scully pursued monsters, aliens, mutants and shadowy conspirators across the American landscape. Running for more than 200 episodes, the series transformed television, crafting a postmodern mythology that spoke to the anxieties and uncertainties of the end of the 20th century. Covering the entire series from its debut through the second feature film, this book examines how creator Chris Carter and his team of writers turned a scrappy cult favorite on Fox into a global phenomenon.

Opening The X-Files Titan Books

Something is going wrong on many college campuses in the last few years. Rates of anxiety, depression, and suicide are rising. Speakers are shouted down. Students and professors say they are walking on eggshells and afraid to speak honestly. How did this happen? First Amendment expert Greg Lukianoff and social psychologist Jonathan Haidt show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education: what doesn't kill you makes you weaker; always trust your feelings; and life is a battle between good people and evil people. These three Great Untruths are incompatible with basic psychological principles, as well as ancient wisdom from many cultures. They interfere with healthy development. Anyone who embraces these untruths—and the resulting culture of safetyism—is less likely to become an autonomous adult able to navigate the bumpy road of life. Lukianoff and Haidt investigate the many social trends that have intersected to produce these untruths. They situate the conflicts on campus in the context of America's rapidly rising political polarization, including a rise in hate crimes and off-campus provocation. They explore changes in childhood including the rise of fearful parenting, the decline of unsupervised play, and the new world of social media that has engulfed teenagers in the last decade. This is a book for anyone who is confused by what is happening on college campuses today, or has children, or is concerned about the growing inability of Americans to live, work, and cooperate across party lines.

The Chrysalids Titan Books

An exploration of many "fringe" lifestyles in Florida, including bikers, ufologists, spiritualists, swingers, "pony girls," strip club owners, nudists, and others.

J.J. Abrams vs. Joss Whedon Baker Books

In a post-apocalyptic Labrador, the survivors live by strict religious beliefs and practice eugenics to maintain "normality." Mutations are considered blasphemies and punished. David, a telepathic boy, befriends Sophie, who has a secret mutation. As they face persecution, they escape to the lawless Fringes. With the help of telepaths and society in "Sealand," they evade hunters, find rescue and plan to return for Rachel, another telepath left behind in Waknuk.

Mindhunter Simon Spotlight

The definitive firsthand account of the movement that permanently broke the American political consensus. What do internet trolls, economic populists, white nationalists, techno-anarchists and Alex Jones have in common? Nothing, except for an unremitting hatred of evangelical progressivism and the so-called "Cathedral" from whence it pours forth. Contrary to the dissembling explanations from the corporate press, this movement did not emerge overnight—nor are its varied subgroups in any sense interchangeable with one another. As united by their opposition as they are divided by their goals, the members of the New Right are willfully suspicious of those in the mainstream who would seek to tell their story. Fortunately, author Michael Malice was there from the very inception, and in The New Right recounts their tale from the beginning. Malice provides an authoritative and unbiased portrait of the New Right as a movement of ideas—ideas that he traces to surprisingly diverse ideological roots. From the heterodox right wing of the 1940s to the Buchanan/Rothbard alliance of 1992 and all the way through to what he witnessed personally in Charlottesville, The New Right is a thorough firsthand accounting of the concepts, characters and chronology of this widely misunderstood sociopolitical phenomenon. Today's fringe is tomorrow's orthodoxy. As entertaining as it is informative, The New Right is required reading for every American across the spectrum who would like to learn more about the past, present and future of our divided political culture.

Extinction Point Lexington Books

This newly reissued debut book in the Rutgers University Press Classics Imprint is the story of the search for a rocket propellant which could be trusted to take man into space. This search was a hazardous enterprise carried out by rival labs who worked against the known laws of nature, with no

guarantee of success or safety. Acclaimed scientist and sci-fi author John Drury Clark writes with irreverent and eyewitness immediacy about the development of the explosive fuels strong enough to negate the relentless restraints of gravity. The resulting volume is as much a memoir as a work of history, sharing a behind-the-scenes view of an enterprise which eventually took men to the moon, missiles to the planets, and satellites to outer space. A classic work in the history of science, and described as "a good book on rocket stuff...that's a really fun one" by SpaceX founder Elon Musk, readers will want to get their hands on this influential classic, available for the first time in decades.

The Multiple Worlds of Fringe Simon and Schuster

Build yourself a box and think outside of it. Your time starts now ... In the TV show and on my marriage certificate, my job description is 'Taskmaster's Assistant'. That's what I do and it's an honour. I like Taskmaster a lot. And, of course, I love The Taskmaster. He's mountainous. If you feel in any way the same as me then you should enjoy this paperback version of the official Taskmaster book. There are tasks for you, your friends and your family. There are new tasks, secret things and sneaky tricks. And there is one swear word. So it's almost exactly like being on the show. Good luck. Make good choices. Let's do Him proud. Alex Horne
Taskmaster's Assistant

The Coddling of the American Mind McFarland

J.K. Rowling, one of the world's most inspiring writers, shares her wisdom and advice. In 2008, J.K. Rowling delivered a deeply affecting commencement speech at Harvard University. Now published for the first time in book form, VERY GOOD LIVES presents J.K. Rowling's words of wisdom for anyone at a turning point in life. How can we embrace failure? And how can we use our imagination to better both ourselves and others? Drawing from stories of her own post-graduate years, the world famous author addresses some of life's most important questions with acuity and emotional force.
