One date with the sexier-than-sin Detective Drake Nash. Simple. Until you take into account that my brother finally proposed to his girlfriend, so Nonna is on a warpath-and the crazy old bat has Cupid by the balls. The upcoming mayoral elections has everyone running on full speed, and while I couldn't give any less craps about the corrupt Holly Woods mayor's office, a dead body in the middle of a campaign speech has me thrown right into the middle of it. The victim is close to the mayor, but all he cares about is minimizing the damage to his campaign, so he hires me to work alongside Drake to close the case as quickly as possible. Bad news for our tentative relationship. We disagree far more than we agree, but being at loggerheads won't get this murder solved... Or deal with the arrival of someone from his past. The mysteries behind the murder aren't the only things unraveling, and despite being knee-deep in lies and corruption and bonds so tangled they're almost indecipherable, I have to figure out if I'm willing to fight for Drake the way I do justice... Or if he'll be my one who gets away. (TANGLED BOND is the second book in the Holly Woods Files series. Although there isn't a cliffhanger, this book does not stand alone and TWISTED BOND must be read first.)

The Seven Principles for Making Marriage Work State University of New York Press
A queer, transgender retelling of Peter Pan in which Pan returns to Neverland after a decade of growing up in the real world - only to be entangled in its youthful violence and a fraught, sensual relationship with his old enemy, Captain Hook.

Handbook of Couples Therapy John Wiley & Sons
"Examines how low female desire is produced, embedded, and lived within neoliberal capitalism. Rethinks 'femininity' by investigating sex research that measures the disconnect between subjective and genital female arousal, contemporary psychiatric diagnoses for low female desire, and new models for understanding women's sexual response"--

After the Affair W. W. Norton & Company
About various theories of gender, sexuality, feminism and masculinity including queer theory, transgender theorizing, modernist liberationism and social constructionism.

Freud and Beyond Routledge
This Halloween, things are about to get super freaky between me and my hunky obsession. I'm completely infatuated with Byron, the gorgeous, tight-shirted barista at the coffee shop on the corner. But he doesn't even know my name. That's

probably because I can't seem to form a sentence in front of him without stammering like a total loser. I obviously need help. I just didn't expect that help to come in the form of an obnoxious straight ghost who haunts my apartment. He is the absolute worst roommate I never asked for. He's cocky, self-assured, and the lessons in confidence he wants to give me are questionable. But if I have any hope of scoring a date this Halloween with Byron, I'm going to need my ghost roommate's help. I'm ready to do whatever it takes to get the guy. "My Ghost Roommate (Who Helps Me Get The Guy)" is a hot and hilarious Halloween male/male novella from the author of MAKING THE NAUGHTY LIST and HARD FOR MY BOSS. Expect steamy romantic suspense, screamingly funny and over-the-top situations, and a happy ending that's all treats and... maybe a few tricks.

Why Women Have Sex Independently Published
This book is open access under a CC BY 4.0 license. This textbook, endorsed by the European Society for Blood and Marrow Transplantation (EBMT), provides adult and paediatric nurses with a full and informative guide covering all aspects of transplant nursing, from basic principles to advanced concepts. It takes the reader on a journey through the history of transplant nursing, including essential and progressive elements to help nurses improve their knowledge and benefit the patient experience, as well as a comprehensive introduction to research and auditing methods. This new volume specifically intended for nurses, complements the ESH-EBMT reference title, a popular educational resource originally developed in 2003 for physicians to accompany an annual training course also serving as an educational tool in its own right. This title is designed to develop the knowledge of nurses in transplantation. It is the first book of its kind specifically targeted at nurses in this specialist field and acknowledges the valuable contribution that nursing makes in this area. This volume presents information that is essential for the education of nurses new to transplantation, while also offering a valuable resource for more experienced nurses who wish to update their knowledge.

Jewel of the Sea (The Kraken #2) Springer
This work provides a detailed and up-to-the-minute survey of the various stability problems that can affect suspension bridges. In order to deduce some experimental data and rules on the behavior of suspension bridges, a number of historical events are first described, in the course of which several questions concerning their stability naturally arise. The book then surveys conventional mathematical models for suspension bridges and suggests new nonlinear alternatives, which can potentially supply answers to some stability questions. New explanations are also provided, based on the nonlinear structural behavior of bridges. All the models and responses presented in the book employ the theory of differential equations and dynamical systems in the broader

sense, demonstrating that methods from nonlinear analysis can allow us to determine the thresholds of instability.

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

How to Catch a Prince John Wiley & Sons

Patients with eating disorders frequently feel that they aren't "sick enough" to merit treatment, despite medical problems that are both measurable and unmeasurable. They may struggle to accept rest, nutrition, and a team to help them move towards recovery. *Sick Enough* offers patients, their families, and clinicians a comprehensive, accessible review of the medical issues that arise from eating disorders by bringing relatable case presentations and a scientifically sound, engaging style to the topic. Using metaphor and patient-centered language, Dr. Gaudiani aims to improve medical diagnosis and treatment, motivate recovery, and validate the lived experiences of individuals of all body shapes and sizes, while firmly rejecting dieting culture.

The Man's Guide to Women Routledge

A practical and up-to-date guide to canine reproduction for dog breeders, veterinary students and veterinary surgeons. Written in an easy-to-use style and presented in a practically useful format with clear illustrations. The information is supported by references from the author's published work and his wealth of clinical experience to form the important authoritative text in this field. A vital aid to those seeking an understanding of normal and abnormal reproduction as well as common reproductive techniques.

Tangled Bond (Holly Woods Files, #2) Abnormalities: Queer/Gender/Em

Clinical Case Studies for the Family Nurse Practitioner is a key resource for advanced practice nurses and graduate students seeking to test their skills in assessing, diagnosing, and managing cases in family and primary care. Composed of more than 70 cases ranging from common to unique, the book compiles years of experience from experts in the field. It is organized chronologically, presenting cases from neonatal to geriatric care in a standard approach built on the SOAP format. This includes differential diagnosis and a series of critical thinking questions ideal

for self-assessment or classroom use.

The author of "Seductress" examines the ladies' man and answers the eternal question: what do women want?

Testosterone Rex: Myths of Sex, Science, and Society eBook Partnership

Modern philosophy of science has paid great attention to the understanding of scientific 'practice', in contrast to concentration on scientific 'method'. Paul Feyerabend's acclaimed work, which has contributed greatly to this new emphasis, shows the deficiencies of some widespread ideas about the nature of knowledge. He argues that the only feasible explanations of scientific successes are historical explanations, and that anarchism must now replace rationalism in the theory of knowledge. The third edition of this classic text contains a new preface and additional reflections at various points in which the author takes account both of recent debates on science and on the impact of scientific products and practices on the human community. While disavowing populism or relativism, Feyerabend continues to insist that the voice of the inexpert must be heard. Thus many environmental perils were first identified by non-experts against prevailing assumptions in the scientific community. Feyerabend's challenging reassessment of scientific claims and understandings are as pungent and timely as ever.

The Social Media Handbook explores how social media are changing disciplinary understandings of the internet and our everyday lives. In addition to person-to-person social networking services like Facebook and Twitter, this volume considers a broad range of networked information services that support in-depth social interaction, community formation, and collaboration in the Web 2.0 era. Rather than considering social media in terms of specific technologies, the chapters in this book engage topics across a range of research, techniques, practices, culture and society, and theories. These broader topics—including community, gender, fandom, disability, and journalism—are entryways through which students and faculty can explore ways of thinking about social media and find new paradigms for analysis. Medieval Sexuality: A Casebook is a fascinating collection featuring both new and established experts in the field. The volume includes 11 original essays by Ross Balzaretti, Philip Crispin, Dominic Janes, Hugh Kennedy, A. Lynn Martin, Kim M. Phillips, Samantha J. E. Riches, Joyce E. Salisbury, David Santiuste, and the volume editors, April Harper and Caroline Proctor. The authors explore a variety of sources, contributing work on a diverse range of topics including: sources for sexuality in Late Lombard Italy; the problematic reception of early medieval penitentials by modern readers; sexuality as experienced by the desert fathers and mothers; connections between saints, monsters, and sexuality in medieval art and hagiography; the relationship between food, seduction, and adultery in the fabliaux; sex, alcohol, and the late medieval stereotype of the unruly woman; sex as a medical and moral concern in medieval regimens of health; ideas of sexuality in political discourse; sex and scandal in festive drama; debates on sexual orientation in Arabic court literature; and pre-colonial descriptions of sexuality in the Far East. The volume concludes with a useful selection of further reading.

Sexual Personae Penguin

From internationally renowned authors, Allan and

Barbara Pease comes the worldwide bestseller *Why Men Don't Listen and Women Can't Read Maps*. Men and women have different values and different rules. Not better or worse – just different. Everyone knew this but very few people were willing to admit it. That is, until Allan and Barbara Pease came along. Their practical, easy-to-read and often controversial book will help you discover the truth about men and women – and teach you what to do about it. They explore why:

- Men really can't do more than one thing at a time
- Men should never lie to women
- Women talk so much and men so little
- Men love erotic images and women aren't impressed
- Women prefer simply to talk it through
- Men offer solutions but hate advice
- Women despair about men's silences
- Men want sex and women need love

Why Men Don't Listen and Women Can't Read Maps is a sometimes shocking, always illuminating and frequently hilarious look at why the battle lines are drawn between the sexes. Read this book and you'll learn so many secrets about the opposite sex you might never have to say you're sorry again!
