In the tradition of California the Beautiful, Galen Rowell's best-selling celebration of the natural beauty of the Golden State, comes Yosemite & the Eastern Sierra, featuring stunning color images by outdoor photographer Gary Crabbe. Here is a fresh look at the wonders of Yosemite

National Park (visited by more than three million people each year), as well as the lesser-known vistas of the pristine wilderness that adjoins the eastern slopes of the Sierra Nevada. From the first light of sunrise cascading above an alpine creek to the last glint of sunset reflected on the joyful serenade of a waterfall ballet at Horsetail Falls, the spirit of the land will nourish your soul. The accompanying text of this small but exquisitely printed volume speaks through the voices of our great nature writers, from Ansel Adams and Galen Rowell to Joan Didion, Wallace Stegner, and Mark Twain. This is the perfect gift for anyone who has ever marveled at the beauty of Yosemite National Park and the glorious gallery of the Eastern Sierra's natural

wonders.

In Camera: How to Get Perfect Pictures Straight Out of the Camera Amherst Media

The Fujifilm X100S is a digital camera with a 23mm fixed prime lens. It is intended for amateurs to semi-professionals who want a camera that allows them to make great images faster and with less hassle than any other digital camera. While

the camera manual explains what the camera can do, it doesn't show exactly how to use the camera to create great images! That's where Fujifilm X100S: From Snapshots to Great Shots comes in. Starting with the top ten things users need to know about the camera, author Kevin Mullins carefully guides readers through the operating features. Readers get practical advice from a pro on which settings to use when, great shooting tips, and end of chapter assignments. From Snapshots to Great Shots is a beautiful how-to photography series that provides the perfect blend of instruction, inspiration, and reference for specific camera models and photography concepts. Featuring a clear, elegant design; outstanding images that educate and inspire; and a friendly, accessible voice, this series helps photographers get great shots every time they pick up their camera.

Rocky Nook, Inc. Providing readers with a study of learning how to turn poorly lit images into finely crafted, masterfully lit photographs, this guidebook instills photographers with the self-confidence to think

on their feet and photograph any portrait subject anywhere. Acclaimed photographer Neil van Niekirk presents seven distinctly different lighting scenarios—available light, exposure metering, a touch of flash, bounced on-camera flash, off-camera flash, video light, and hard sunlight—to show readers how to manipulate the direction and quality of light, the subject's position, and numerous other variables so as to turn a bad image into a stunning, professional-level portrait. Packed with dozens of instructional, full-color photos, this work also features 10 sample photo sessions, allowing readers the opportunity to see the seven lighting scenarios put to practice.

Revelation Unveiled "O'Reilly Media, Inc."

The X100T is the third generation in Fujifilm's popular, groundbreaking, and award-winning X100-series cameras. With its small size, powerful functionality, and classic rangefinder design, the X100 line has become the go-to camera for travel, snapshots, and street photography for amateurs and professionals alike. This book sets the X100T alongside its predecessor, the X100S,

explaining everything you need to know to get the most out of these exceptional cameras. In *Mastering the Fujifilm X100T and X100S*, photographer Peter Fauland goes well beyond the camera manual to offer ambitious photographers both in-depth techniques and helpful tips on how to get the most out of their cameras. Fauland not only explains each camera's functions and features, he provides practical advice for specific shooting situations—such as urban landscapes, “silent shooting,” and portraiture—using clear instructions along with example images. Included are discussions on new features such as:

- The new hybrid viewfinder
- The integrated ND filter
- In-camera image editing
- Effective use of flash
- Using WiFi
- Shooting video
- Much, much more

Intended for those who already have a basic understanding of photography fundamentals such as exposure and composition, this book gets X100T and X100S owners quickly up and running with their cameras, significantly shortening the learning curve on the path to creating great photographs. Even for seasoned amateurs, advanced enthusiasts, and semi-pros, there are sure to be many aha moments as Fauland reveals new tips, tricks, and techniques for using the X100T and X100S cameras.

Ansel Adams (1902-1984) produced some of the 20th century's most iconic photographic images and helped nurture the art of photography through his creative innovations and peerless technical mastery. The Print--the third volume in Adams' celebrated series of books on photographic techniques--has taught generations of photographers how to explore the artistic possibilities of printmaking. Examples of Adams' own work clarify the principles discussed. This classic handbook distills the knowledge gained through a

lifetime in photography and remains as vital today as when it was first published. The Print takes you step-by-step--from designing and furnishing a darkroom to mounting and displaying your photographs, from making your first print to mastering advanced techniques, such as developer modifications, toning and bleaching, and burning and dodging. Filled with indispensable darkroom techniques and tips, this amply illustrated guide shows how printmaking--the culmination of photography's creative process--can be used expressively to enhance an image. "Adams is a clear-thinking writer whose concepts cannot but help the serious photographer." - New York Times "A master-class kind of guide from an undisputed master." - Publishers Weekly Over 1 million copies sold. Publisher's Note: This ebook of The Print works best as a digital companion to the print edition. The Fujifilm X100T and X100S are unique and capable new cameras that have the ability to record both movies and photographs. They offer the recording of high quality high definition movies; they come with a rechargeable battery that can take more than 500 shots when fully charged and with the right memory capacity. They also have the unique features of panoramas, multiple exposure, and long-time exposure for bulb and time mode in the shutter speed selection. The built in flash ensures that you can take photos in the night time and that the red eye effect common at night can be greatly reduced. You also get to try the film simulation under the different bracketing options and the main bracketing for taking photos with the different exposure. The pre-set manual lets you access the settings that you had used when taking a previous photograph.
