Master Fuji flash shooting with confidence! If you are in any way uncertain about using flash with Fujifilm cameras, then this book will make it simple for you. It's Advanced Lighting 101 for Fujifilm - including making manual flash a breeze. This book is for ALL Fujifilm "X" camera owners who want to improve their use of flash - both on and off the camera. The tools and techniques discussed apply equally to

shooting snapshots, weddings, portraits, travel - in fact any photography where changing the quality of light gets you the desired outcome. The information in this book covers all current "X" cameras including the XE, XT, and X Pro series of interchangeable lens cameras, as well as the unique real high speed flash sync capability available in fixed lens X100/S/T leaf shutter cameras. More details can be

found at the Friedman Archives Press website. New Riders Learn to train your eye and improve your timing in order to capture the decisive moment!

Whether it ' s due to social media or the introduction of great rangefinder-style digital cameras over a decade ago, street photography has experienced a remarkable resurgence in recent years. You can be roaming the streets of a classic urban environment (New York, Paris, Tokyo) or on a simple photo walk around a quiet

---

neighborhood—it has never been more popular to pursue the art of capturing those candid, fleeting moments that happen throughout the day, of freezing a moment in time and transforming the ordinary into an extraordinary photograph.

But learning to see light and moment, to make quick decisions, and to nail a photographic composition are all crucial skills you must master in order to become a good street photographer. Photographer, instructor, and author Valerie Jardin has been

teaching photographers how to take better photographs for years, and in Street Photography Assignments: 75 Reasons to Hit the Streets and Learn, she provides dozens of prompts for you to practice in order to refine and improve your craft.

These activities focus on themes such as:

- Street portraits
  - Gesture
  - Shadows
  - Silhouettes
  - Rim light
  - Humor
  - Abstract
  - Tension
  - Motion
  - Reflections
  - Leading

lines

- Creative framing
- Juxtapositions
- Double exposures
- And much, much more!

Each assignment includes a description of the technique, various tips and tricks to practice, technical and compositional considerations, and an example photo that Jardin has captured when practicing the same exercise. Whether you have 30 minutes or 3 hours, each assignment is an opportunity for you to take your camera and hit the streets.
