Many semi-pro and professional wedding photographers are looking to "wake up" their style, stay current, and stimulate business. And today, that means lifestyle photography, also referred to as "fine art wedding photography." Fine art wedding photography isn't just a catchy phrase; it's a modern approach in which design is paramount. Fine art wedding images are more graphic and stylized than traditional wedding photojournalism, as if they were pulled from the pages of a glossy wedding or lifestyle magazine. Acclaimed wedding photographer Jose Villa was a pioneer in fine art wedding photography before it became a trendy buzzword. Here, he shares his secrets for bringing a stylized sense of composition, lighting, posing, and most important, design, to your images, while still keeping them organic and narrative. You'll learn Jose's trademark technique of capturing the more natural moment after a pose, and tips for getting images right in-camera to avoid the need for heavy postproduction. Final chapters show you how to integrate design through the delivered product, whether an album or slideshow, and continue nurturing clients after the wedding by expanding to baby and family portraiture. Packed with real-life examples, solid techniques, and stunning images from one of the wedding industry's brightest stars, this book will both educate and inspire photographers seeking to update their work and satisfy a new generation of brides.

In the tradition of California the Beautiful, Galen Rowell's best-selling celebration of the natural beauty of the Golden State, comes Yosemite & the Eastern Sierra, featuring stunning color images by outdoor photographer Gary Crabbe. Here is a fresh look at the wonders of Yosemite National Park (visited by more than three million people each year), as well as the lesser-known vistas of the pristine wilderness that adjoins the eastern slopes of the Sierra Nevada. From the first light of sunrise cascading above an alpine creek to the last glint of sunset reflected on the joyful serenade of a waterfall ballet at Horsetail Falls, the spirit of the land will nourish your soul. The accompanying text of this small but exquisitely printed volume speaks through the voices of our great nature writers, from Ansel Adams and Galen Rowell to Joan Didion, Wallace Stegner, and Mark Twain. This is the perfect gift for anyone who has ever marveled at the beauty of Yosemite National Park and the glorious gallery of the Eastern Sierra's natural wonders.

Fifty years after his assassination on 22 November 1963, John F. Kennedy is still a towering figure in the history of our times and across the world. Jacques Lowe was the official photographer of JFK's campaign for the presidency as well as his personal photographer following his election in 1960. Over 250 images capture life with this compelling politician on the campaign trail, at home with Jackie and daughter Caroline, politicking behind the scenes at the convention, at work in the White House, as a leader on the world stage, and his funeral at Arlington National Cemetery, mourned by millions around the world. Throughout, the photographs are complemented by Lowe's personal record of his friendship with the whole Kennedy family and his years at the heart of American politics. They provide a unique record of one of the most enduringly fascinating politicians of the modern era.

Over the past decade, photographer Robert Burley has traveled the world documenting the abandonment and destruction of film-based photography, namely, the factories where film was produced and the labs that developed it. Burley's atmospheric large-format photographs transport viewers to rarely seen sites where the alchemy of the photographic process was practiced over the last century - from the Polaroid plant in Waltham, Massachusetts to the Kodak-Path é plant in Chalon-sur-Saône, France, the birthplace in 1827 of photography itself. As both fine art and documentary, The Disappearance of Darkness is an elegiac reflection on the resilience of traditional art forms in the digital era and a vital commemoration of a century-old industry that seems to have disappeared overnight.

PhotoWork is a collection of interviews by forty photographers about their approach to making photographs and, more importantly, a sustained body of work. Curator and lecturer Sasha Wolf was inspired to seek out and assemble responses to these questions after hearing from countless young photographers about how they often feel adrift in their own practice, wondering if they are doing it the "right" way. The responses, from both established and newly emerging photographers, reveal there is no single path.

The Fujifilm X100S is a digital camera with a 23mm fixed prime lens. It is intended for amateurs to semi-professionals who want a camera that allows them to make great images faster and with less hassle than any other digital camera. While the camera manual explains what the camera can do, it doesn't show exactly how to use the camera to create great images! That's where Fujifilm X100S: From Snapshots to Great Shots comes in. Starting with the top ten things users need to know about the camera, author Kevin Mullins carefully guides readers through the operating features. Readers get practical advice from a pro on which settings to use when, great shooting tips, and end of chapter assignments. From Snapshots to Great Shots is a beautiful how-to photography series that provides the perfect blend of instruction, inspiration, and reference for specific camera models and photography concepts. Featuring a clear, elegant design; outstanding images that educate and inspire; and a friendly, accessible voice, this series helps photographers get great shots every time they pick up their camera.
