Mastering the Fujifilm X100T and X100S Taylor & Francis PhotoWork is a collection of interviews by forty photographers about their approach to making photographs and, more importantly, a sustained body of work. Curator and lecturer Sasha Wolf was inspired to seek out and assemble responses to these questions after hearing from countless young photographers

about how they often feel adrift in their own practice, wondering if they are doing it the "right" way. The responses, from both established and newly emerging photographers, reveal there is no single path.
