Collaboratively Constructed Language Resources (CCLRs) such as Wikipedia, Wiktionary, Linked Open Data, and various resources developed using crowdsourcing techniques such as Games with a Purpose and Mechanical Turk have substantially contributed to the research in natural language processing (NLP). Various NLP tasks utilize such resources to substitute for or supplement conventional lexical semantic resources and linguistically annotated corpora. These resources also provide an extensive body of texts from which valuable knowledge is mined. There are an increasing number of community efforts to link and maintain multiple linguistic resources. This book aims offers comprehensive coverage of CCLR-related topics, including their construction, utilization in NLP tasks, and interlinkage and management. Various Bachelor/Master/Ph.D. programs in natural language processing, computational linguistics, and knowledge discovery can

use this book both as the main text and as a supplementary reading. The book also provides a valuable reference guide for researchers and professionals for the above topics.

This book brings to life one of the most exciting eras in American history. In late 1819 Colonel Henry Atkinson led an expedition to explore the wilderness of the Upper Missouri and establish sites for a string of military

posts, which would extend successful contacts with the Indians as well as exploit trade with British companies. The result of his efforts was a fort system which played a dramatic and significant role in the opening of the territories of the upper plains and the Rockies.
